Erin James is the author of Tasting Ciderà and the editor-in-chief of CIDERCRAFTà ® and Sip Northwest magazines. A tenured food, beverage, and travel writer, her work has appeared in a variety of publications, including Wino Magazine, Washington State Wine, Seattle Met Bride & Groom, and Seattle Weekly. She lives in Seattle and can be found online at cidercraftmag.com.CIDERCRAFTà ®Ã Â magazineà is North Americaââ ¬â,¢s first print publication dedicated to hard cider.à Publishing three times a year,à CIDERCRAFTà ®Ã Â magazineà profiles the artisans behind the craft,à while exploring the regions and orchards, meetingà the movers and shakers of the industry, listingà original cocktail recipes from nationally renowned bar-chefs, recommendingà pairings with cider-friendly cuisine, and workingà to create a connection between the consumer and cider producers.

I wasn't much of a beer drinker, until the craft breweries took over and created such amazing flavors that I couldn't help but be drawn to them. And while I love a deep stout with a rich chocolate overtone or a light pale ale, I found myself drawn over and over to the fruity beers. I have always been a fan of fruit, so this wasn't a huge surprise. And then finally it occurred to me that I should skip the middle man (the grains) and go straight for the fruit: hard cider. And I figured that out just in time, because hard cider too is having a moment. Artisans are finally getting their due, and the world of hard cider has exploded from just a couple of brands on most store shelves to a wide variety of labels, flavors, styles, and creativity. The editors of Cidercraft Magazine have put together the

ultimate guide to this new hard cider world. Out tomorrow, Tasting Cider is a handbook to this tasty new realm. With gorgeous photographs, a history of cider in America, a glossary, and even recipes for cider cocktails as well as entrees and desserts using cider (Cider Braised Chicken? Woodchuck Cider Pulled Pork? Hard Apple Cider Crisp? Yes, please!), this cider guide is perfect for cider drinkers wanting to learn more about their favorite beverage. But even better than all that, if that's possible, is the in-depth introduction to cider types and cider makers from across the United States. Barrel-aged ciders, botanical and spiced ciders, orchard-based varieties, hopped ciders, single-varietal ciders, perry, and more--each type of cider gets its time in the spotlight. And while beginners like me can get a road map to many flavorful treats, even experienced cider drinkers can find something in here to learn and to prompt a road trip to a local cider maker, or at least to a local liquor store. Anyone interested in cider--drinking it, cooking with it, making cider cocktails, or even learning to make it--can find plenty of information and inspiration in Tasting Cider. It's a phenomenal collection of knowledge for cider drinkers of any level or preference, and would make a beautiful gift as well. Cider drinkers need a guide just like this one. I know I did. Really enjoying this book! I have been drinking cider for the last couple of years. It is my drink of choice now! This book is helping direct my further exploration. The author discusses 11 categories of cider. She explains each category, interviews a Cider owner in that category and recommends some ciders to taste. There is also a chapter with cider cocktail recipes which doesn't interest me. With that said, I plan to try some of the cider-centric dessert recipes. I found this book a well organized overview of ciders--a good reference book!

Loved this book! Not only is it informative but it really is beautifully put together. Who knew there was so much to learn about cider. Also it has great pictures and the recipes make me want to try every single one. Someone pour this writer a drink of cider!
