# The Qur'an With Annotated Interpretation In Modern English

## Synopsis

A timely addition to literature on the holy book of Islam, this translation provides the Arabic text as well as extensive explanations and interpretations on most verses. The use of modern English both in the translation and the commentaries, and the focus on social and historical aspects of Islam in the commentaries and appendices make the translation particularly accessible.

## Book Information

Paperback: 1368 pages

Publisher: Tughra Books (November 1, 2008)

Language: English

ISBN-10: 1597841447

ISBN-13: 978-1597841443

Product Dimensions: 6.1 x 1.4 x 9.1 inches

Shipping Weight: 2.3 pounds (View shipping rates and policies)

Best Sellers Rank: #185,603 in Books (See Top 100 in Books) #70 in [Books > Religion & Spirituality > Islam > Quran](#)

## Customer Reviews

"The eloquence and deep learning of this volume speaks to people from all faiths. Readers who are new to the study of the Qur'an, as well as those who are already immersed in its beauty, will benefit immensely from Unal's annotated translation." -Dr. Bernadette Andrea, University of Texas-San Antonio "The introductory material explaining both the provenance and interpretation of the Qur'an is among the most useful I have encountered in existing editions . . . a clearly Islamic understanding of the text which neither panders to political correctness nor seeks unnecessary conflict or confrontation with non-Muslim communities." -Robert Hunt, Southern Methodist University "Readers who are new to the study of the Qur'an, as well as those who are already immersed in its beauty, will benefit immensely from Unal's annotated translation." --Dr. Bernadette Andrea, University of Texas-San Antonio "One of the best English translations of the last few decades. The language is both lucid and faithful to the original Arabic." --Scott C. Alexander, PhD, associate professor, Islamic Studies; director, Catholic-Muslim studies, Catholic Theological Union "Present[s] a clearly Islamic understanding of the text which neither panders to political correctness nor seeks unnecessary conflict or confrontation with non-Muslim communities." --Robert Hunt, director, global theological education, Southern Methodist University

"The eloquence and deep learning of this volume speaks to people from all faiths. Framed by an introduction, extensive notes, and several appendices from a master of tafsir and ta'wil (Qur'anic interpretation and commentary), this volume attests to the universal appeal of Islam's holiest book. Readers, who are new to the study of the Qur'an, as well as those who are already immersed in its beauty, will benefit immensely from Unal's annotated translation." -- Professor Bernadette Andrea, University of Texas at San Antonio "The introductory material explaining both the provenance and interpretation of the Qur'an is among the most useful I have encountered in existing editions. Non-Muslim readers will certainly benefit from the general explanation of interpretation and commentary on the Qur'an, as well as the clear explication of how the text is presented in this edition. And here I compliment you on presenting a clearly Islamic understanding of the text which neither panders to political correctness nor seeks unnecessary conflict or confrontation with non-Muslim communities. It is increasingly recognized that casual readers of the Qur'an are more likely to be confused than enlightened if they simply read a literal translation in its given order." --Robert Hunt, Professor of Religion, Southern Methodist University "Ali Unal's translation is one of the best English translations of the last few decades. The language is both lucid and faithful to the original Arabic. The commentary is extremely valuable for two main reasons. The first is the degree to which it roots itself in the classical tafsir tradition, bringing to its audience the insights of centuries of classical Qur'an interpretation. The second is its focus on the spiritual teachings and implications of the verses--a focus that is far too rare in many other contemporary commentaries." --Scott C. Alexander, Professor of Islamic Studies, Catholic Theological Union --This text refers to the Hardcover edition.

This is by far the best translation of the Qur'an I've ever read. It sounds so neutral and is so straightforward. I love how he adds explanations to make it so much easier to understand! May He be blessed for writing such a beautiful translation that makes you want to read more!

A contemporary interpretation of Quran. It is detailed enough to learn most of the tenants of the message of Islam, but it is short enough to be finished in a month with daily regular readings. Footnotes and Appendixes are excellent, references to other traditional commentary books are appropriate. Explaining each verse within the context of its revelation- a method that prevents many misunderstandings of readers (both muslims and non-muslims). I recommend this over all other popular translation books.

This is not a hard cover, look at the book sizes carefully, it's smaller than expected and it is hard to read the arabic version within the page. Pages are very very very thin.

Ali Unal's Translation/Interpretation with commentaries by him and Muslim scholarly intellectuals like Said Nursi, Fethullah Gulen and more , and other Non-Muslim Orientalist, or Christian Scholars. Definitely must have translation for Muslim who needs to stay educated about Islam in this times of of political deceit and must stay vigilant from modern warfare tricks of where Islam is used as boogie man for naive minds. One must be able to explain and discribed the core of Islam to people who think Islam is what hidden agendas or false agendas pretending to be Muslim like ISIS selling out there. Quran must be understood with chronological order, one must know when and where and why every verse of it was revealed/telegrammed to understand it and its message, and every Muslim must be able to correct every mislead person who were told the verse from the Quran out of (chapter's and historical) context. This translation, Muhammad Asad's (Leipold Weiss'), and Abdullah Yusuf Ali's translation is must have for every Muslim and every non-Muslim curious to know the truth about Islam

The Holy Qur'an is a series of revelation to Prophet Muhammad (peace be upon him) in a span of 23 years. Therefore, reading the Holy Qur'an with annotation is a must if one wants to fully understand Islam. Mr. Unal does a perfect job in annotated interpretation. An index which allows anyone to just reference specific issues and topics is very nice. In addition, Mr. Unal also talks about specific issues in Islam.

I have a lot of Qur'an translations but I find this one the best, as common, spoken English is used. In addition, explanations are very detail and thorough yet not scholarly. My only complaint on this particular print format is that paper it too thin. I also have a bonded smaller version that I use more often.

Important read for those who want to begin to understand Islam from the "foundations" of the faith. Obviously, the Qu'ran is a good place to start. The first time that I read it, I was very surprised at the violence and language of what happens to the "infidels" and "unbelievers" when they are assigned to hell.

Arrived on time, excellent quality and beautiful translation. Very happy.
