Customer Reviews

"... a superb, quick and easy-to-use reference for entertainment industry professionals and fans alike." -- Midwest Book Review, February 5, 2005
An exhaustive list of essential celebrity contact information. Over 40,000 celebrity addresses. Certainly fascinating and as no-nonsense as it gets. -- Kirkus Discoveries, January 2005
Similar titles do not boast as many entries--a wide variety of information is consolidated here. Recommended for all libraries. -- Library Journal, January 2005

Located in Los Angeles, California, Jordan McAuley and his firm Contact Any Celebrity puts fans,

businesses and nonprofit organizations in contact with celebrities and other notable VIPs.

This book's front cover boasts "over 40,000 celebrity addresses, everyone who is anyone." That's not quite accurate. I've discovered a number of people who were omitted or just plain forgotten. That aside, the book does include addresses for most mainstream celebs, musicians and athletes and presents them in a straightforward, alphabetical listing. But a word of caution: keep in mind that celebs change agents/managers often, which means their mailing addresses change often too. So this book's shelf life is limited. What this book sorely lacks is additional information to accompany each listing. For example, has the address for Brad Pitt been tested to see if it is accurate? And, if it has, has anyone (the author?) had success in contacting Pitt that way? This is the stuff that matters if you're a novice (or even experienced) autograph collector. An address will do you no good if the recipient doesn't read (or get) their fan mail. Ultimately, though, the book only promises to give addresses, and that's what it does. These addresses have been culled from contactanycelebrity.com, which is the book's companion Web site. When you buy the book, you can mail/fax in a registration form, giving you one month's free access to the Web site's vast database. That's a nice extra. All in all, the book is good, but a bit pricey for what it delivers given its limited shelf life.

I must say I'm quite overwhelmed by all the people listed in this book. It's got almost everyone you know of and more! I'm very impressed. The only thing that I think is "wrong" with this book is that they haven't written the title of everyone, so on some people you don't know who they are, but it's not that many. I was very very surprised to find David Mark Chapman's address (prison) in there. Of course it didn't say what he is, although pretty much everyone knows anyway. It seems that some of the addresses are to people's homes. You've got addresses to musicians, politicians, journalists, actors, athletes, writers, Nobel prize winners, doctors, anyone you can think of in the whole world!! It's a treasure! On the website they've got about 10,000 more addresses (I wonder why they didn't put them all in the book??) This is really the ultimate Celebrity Address book I've ever seen. Buy it!

like it lots, not sure if any right address still?

I've been buying this book for years. As stated in other reviews, the books are not as useful as time goes by due to the change in managers, addresses, etc.. However, that is the nature of the business. The book is not going to automatically update itself! What I have learned is that the

updated version have the most up to date info on addresses you can find. It is definitely worth the buy. Just make sure you update every year to have the most up to date info. Great book! Keep up the good work!

If you are looking for movie stars, this might be a great book. I bought this book (the 2005 edition) primarily to locate artists (e.g., photographers, painters, sculptors). The book is basically useless in this regard. Proportionately speaking, there are extremely few listings of those types of artists. Ironically, even well-known, i.e., "celebrity" artists are omitted, as are lesser known but important ones. The few listed are seemingly random, including comic strip "artists." Worse, several of those listed are either very old (no longer working) or dead. I wonder if the addresses given are for cemeteries? Actually, the addresses for the few artists of interest to me were most often wrong based upon a simple cross reference search on the web. Of course, that also makes me question the accuracy of the other listings. This seems a useful resource for those interested in actors, random athletes and opera singers, but for any other interest--it simply needs to be updated.

I rated it just OK because I failed to notice the publication date of this book. So many persons that I want to look up are not there because 2005 was too long ago. I should have been more careful, and I will be from here on out when I order books.

I purchased this book for my husband who collects autographs, mostly through the mail now that we don't live in LA. He loves it! He uses the book on a regular basis to write to sports figures, politicians and actors/actresses. So far we have had good luck with the addresses listed.

Now in an updated 2005 edition, The Celebrity Black Book is a handy reference compiling more than 40,000 celebrity addresses. Movie and TV stars, musicians, athletes, performance groups, and everyone who is anyone has their name, career, and surface mail address listed in this comprehensive guide (e-mail addresses are not included, though). A superb, quick and easy-to-use reference for entertainment industry professionals and fans alike.
