Customer Reviews

My 9 year old minecraft-obsessed son LOVED this series, got him reading in no time. Granted these are graphic novels, he actually loves the minecraft novels even more, by winter morgan, those are his favorites but loved this series too. His ONLY complaint was that the illustrations weren't actually minecraft pixelated characters but rather more cartoony.

The kid loved the entire series - I bought all the volumes for him. He still reads them over and over. The kids at school love them too!

My 5 year old grandson is addicted with anything Minecraft so when I gave him this comic book he was really excited and started reading it right away. (He can read quite well.). He loved Volume 1.

I really liked it! I give it five stars. You guys should read it! The wither looks different then The Minecraft Wither in fact, NONE of it was Minecraft. I still love the book and you should read it if you love comics and graphic novels FIVE STARS

I think is an ok book series for young kids. But it seems never ending and ends very shortly. Its not like,"Petrified, Steve and his dad face a..." That would be more convincing to read the next one THAT YOU CANT EVEN BUY ON KINDLE.

This is so awesome it have cool details and drawings i really like your books i mean all of them you are a very smart author! :)

I like the book so much I can't wait for the new book the attack of the wither. I liked when they destroyed the witch it was so cool.

It was amazing you haven't live until you've read it the conflict and adventure it sooo good celebrations for minecraft
