Monsters And Aliens From George Lucas

Synopsis

Some of the most bizarre monsters and aliens ever seen populate the films of George Lucas, creator of the Star Wars trilogy. Sometimes beautiful, sometimes horrifying, often hilarious, here are 31 full-color portraits and descriptions of a never-before-published group of Lucas's eeriest beings.

Customer Reviews

Though there are some cool pictures of creatures George Lucas never used, and some funny jokes between the pictures, there's not a lot in this book, and a lot of the pictures are of creatures he did use.

I just recieved a copy of this book and have to say it is everything I expected from George Lucas. Hollow, weak and simply boring..though some pictures are interesting..it is mostly boring..Thank goodness did not pay full amount for it. Stick with Barlowe or just about any other writer/illustrator. Like his newest Star Wars though pretty it will leave you uninspired.

This is an amazing book 5 star!Even though its old its full of cool pictures and stories!If you like star wars characters georgelucas created them so check out a few more
