Customer Reviews

Turkey was one of the world's 10 fastest growing tourism destinations of 2013, achieving a 10.5% growth in International Tourist Arrivals (source: Swift.com, Jan 2014): an excellent reason to check out this new edition, with its unique narrative text covering the country's rich cultural, historical and contemporary attractions.

Insight Guides wherever possible uses local experts who provide insider know-how and share their love and knowledge of the destination.

I purchased this for an upcoming trip. I can't believe how much information is in this book! This is so

much better than your regular travel and tourist books. These insight guide books are packed with detailed history that goes back centuries and details on every aspect of country up until the issue date. If you're going to Turkey buy this. Worth every penny. I'm still reading this and can refer to it again on my followup trips. They also make a book called step by step Istanbul that's great to take along and do your own walking tour at your own pace.

I love Insight guides! I never embark on a new adventure without reading Insight's info first.

Lush photos and detailed information. The only drawback to this volume is that its weight makes it too heavy to throw in the backpack. But for pre-planning it is superb.

Great detail and helpful information. Haven't made the trip as yet, but wouldn't attempt it without this.

I bought the e book from Amazon to be downloaded on my iPhone. It was useless because I could only open the first pages. It was damaged goods. I wished I bought a real book in book store.

Big fan of Insight guides. Excellent texts on culture, food, history, geography, Beautiful maps and photos.
