Synopsis

A perfect follow up to Dissension and I'm already aching to know what's going to happen next.~Voracious Reviews~ Honor or freedom. Mira can only choose one. Narrowly escaping death at the hands of the Magistrate, and with the Iron Gate army close behind, Mira travels west, toward the coast with three human fugitives, searching for the mythical land of Sanctuary. After encountering a pack of wolf shifters, headed by the charismatic-and brazen-Stryker, Mira learns that Sanctuary is real after all. Caldera Grove: home of the Otherkin. Hidden in the mouth of a dormant volcano, it has protected its residents from humans since the early days following the great cataclysm. For Mira- a vampire-Caldera is a land of peace; an escape from the relentless persecution of the humans who once enslaved her, and an end to the daily struggle and bloodshed of being a gladiator. For the humans accompanying her, Caldera Grove means death. Trespassers are destroyed before they can penetrate its borders. Follow Stryker toward freedom and peace, or honor the humans who risked everything to aid her escape, and stand and fight against the army of humans closing in on them? A choice must be made, and Mira alone will have to shoulder the consequences.

WOWIn the second part of The Chronicles of the Uprising. We continue right where Dissension leaves off with Mira, Lucian, Curtis and Sarah on the run and looking for Sanctuary. Mira always believed Sanctuary to be a myth that is until she meets Stryker a wolf shifter, but is Sanctuary going to be the safe harbor she is hoping for is it to good to be true. With a Battle brewing Mira must convince the others that her human companions are not like the other humans from The Iron Gate City. Mira a warrior vampire just wants peace and freedom must face a battle to prove that her kind are not all as bloodthirsty savages the humans seem to believe. K.A. Salidas has done it again created amazing characters and a world that you will love to explore. Her description is amazing and will keep you glued as you watch Mira and her group of friends and allies travel through this post apocalyptic world where the humans are are the ones to be feared and not the vampires. I highly RECOMMEND this read to any and all Lovers OF VAMPIRES AND DYSTOPIANS. This is a unique and awesome fast paced read.

Mira and her friends find Sanctuary but she must first travel with Stryker and seek the counsel and find out if the humans like Curtis , Sarah and Lucian can come and be safe but the deal is so much more in which goes against what Mira believes her friends will want and will not take their choice away from them .. Stryker and his pack are along for awhile though Stryker and Mira must stay back due to some fallen friends and to have the group part for a day then meet up but the deal has changed due to the kindness of what the humans did for the pack and they all go to Sanctuary but then have a confrontation but things are not always what they seem , to find out who is the fallen .. did Mira's friends stay alive or are they the fallen .. or will the counsel listen to reason or will they be ignorant and not realize they need to fight not be cowardice to find this and more buy , read and review .. oh yeah some jealousy among two men vying for Mira to find out whom well you know what you got to do buy , read and then review and stay turned to book three or buy the whole series in the complete trilogy for 5.00 instead of 7.00

The one thing I want to say is if you read these books and don't learn a lesson you need to read it again. Everyone has troubles and with this book you learn that sooner or later the trouble you are

hiding from will eventually find you no matter where you hide. Sometimes you have to seek help from those you don't trust, but in the end you have to step out of your comfort zone to protect everyone and not just yourself. Until Next Time.....Tabi

Mira has finally escaped from the Iron Gates with her three helpers. Being a fighter is all she knows. All she can think of doing is finding Sanctuary. They can find safety there, be free. But life is never easy, and just when they meet up with a werewolf pack that may be protecting Sanctuary, the Iron Gate have sent someone to find her. Not only does she have to fight again, but Sanctuary will not accept humans. Can she win this fight, or will that be what she will always need to do. Mira has an inner strength that makes people believe in her, makes allies of the people she meets. This just may be the one thing that helps her survive to enjoy her freedom. Looking forward to book three.

I read book one, Dissension, almost two years ago. While I'd liked the first novella it ended abruptly--this read more like an installment serial than a true novella. I was disappointed in the price of book 2, which is only advertised as 100 pages, so I decided to stop the serial. I finally managed to pick book 2 up for 1.99, which is more than I like for a hundred pages, but it was a dollar off the old price, so I thought I'd give this one another try as I liked the storyline. As before, I loved the plot- the author has a nice fluid writing style, unfortunately this was another episode (which I knew before purchase), and it ended at 63 percent-- the rest was filler and marketing for the author's other books. This gets five stars as a well-written serial installment. It loses this reader, who expects more for their dollar-- in this case, I didn't even get the 100 pages I expected for my two bucks. NOTE: Great writer, but over-priced and the blurb should clearly state this is a serial in installments so the reader can weight the cost of the whole series versus the 60 readable pages offered each time.

This continues with the same energy as the first book. I had to know what was going to happen. Another great read!

Good read

Damn, that woman is a 1 person killing machine. Do not piss her off. Now, though, what's with the handsome wolf shifter. Kinda felt a little sexual tension there...hmmm
