\* A hands-on guidebook to understanding chakras and how to use them to accomplish your personal and financial goals. \* Includes a practical questionnaire to help you figure out the keys to your financial success. \* Cyndi Dale's New Chakra Healing has sold more than 65,000 copies.

CYNDI DALE is the president of Life Systems Services, a highly successful corporation that provides organizations and individuals with intuitive-based consulting and life-issues counseling. Cyndi travels extensively leading national seminars on the intuitive energy system and how it can change your life. She resides in Minneapolis, Minnesota.

Really useful book for those looking for self-realization. It covers gracefully both physical and metaphysical aspects, and contains some smart goal-oriented instructions. Very professional.

I loved this book. It gave me insight to consider seriously.

Does not work save your time, money and effort please.

Great insight on identity of your particular spirit quest. I love this book! It help me see my particular chakra guide.

This was a pretty good book and I've read a lot of Cindi Dale's books. I think this one was well written

Its Good and different information but half information and doesnt feel like complete information about the subject she started has been given ...in fact this is the case with many of her books ..we are left with the questions related to what she already mentioned about and we are left assuming and guessing.I like cyndi dale though somehow dont feel that I have recieved complete information guidance or data even after reading her bookSorry to say that we spend so much of Indian currency value but feel uplifted yet incomplete as if there was something else that was supposed to be worked out in the informationIf some information is better than complete information then you can get her book3 stars because at least somethings I have received from her different than in other books and I am an avid book reader sol like you cyndi but please help us by giving complete information that would help us apply it fully in our lives in a way that we are not left assuming or guessing about things...

This book provides a few interesting concepts and Cyndi Dale writes well. The quiz that drives the book is interesting and seems relatively thorough. She even attempts to round things about by providing career advice and magnetizing techniques. Someone with more knowledge than me has suggested that the chakra money types bear more than a passing resemblance to the major arcana of the tarot. Since I have no knowledge of or interest in the tarot, I don't know if this is true or not.Where the book falls down is in the application she suggests, based on your chakra money style(s). Your strongest chakra patterns are used to indicate your money personality and to suggest actions to improve your results. Esoteric suggestions are made in an offhand manner, like she is telling you to go make a cheese sandwich. Here are a couple examples that left me scratching my head.From page 88:5. Direct fifth chakra communication skills to hear what spiritual guides or the Divine has to say.From page 89:- Learn your lessons from the past. As a Shaman, you can read the Akashic Records, the history annals of time containing everything you or someone else has ever done, said, or thought. Want to avoid mistakes you made a long time ago? Read about them--and

learn! From page 106:8. Eighth chakra: Walk as the Shaman walks--between worlds--to figure out your choices and to gain spirit-based assistance in implementing your decision. OK, so I've heard of the Akashic Records but that doesn't mean I know how to read them, if they exist. How do I direct 5th chakra communications? How do I walk between worlds; is it "simply" astral projection? This confusion would suggest that either the quiz is an inaccurate tool (I believe I filled it out honestly) or the implication is that, based on my types, I should already have divined how to do these things. Either could be the case but the very least that could be done, short of actually providing some guidance, would be to provide suggested readings. This leads me to the conclusion that this is an intriguing "half book."

A practical, new age aptitude test. I found the author's perspective to be unique, inspiring and extraordinarily helpful.
