Hear Me Out (Hawks MC: Caroline Springs Charter Book 5)

Synopsis

Fear keeps the truth away from his brothers. Fear and pain keeps him away from the man he loves. Hawks MC member Maddox "Beast" Lawson had a difficult time growing up. Tired of being ridiculed because of his effed-up brain-to-mouth connection, it was easier to say nothing at all. Living in silence worked out just fine until that b*tch called Fate took his hearing, not only that, but she also threw him into the arms of the man who refuses to acknowledge that one hot night they shared. Jay Conger, Knife to his brothers, loves pussy. Licking, fingering, screwing, he'll take it any way it's offered. After one surprising night with Beast, to say he freaked out is an understatement. Hell, even bananas have taken on a new meaning, and thinking about a certain someone's body is too much. Unable to think straight, Knife is at an impasse, not only with his traitorous desire but with his heart. Both lives are going to change. Only will it be for the better?

Customer Reviews

This author is one of my all time favs and she writes MC books so fabulously. She did not disappoint with this book though she has never let me down with any of the storylines in this series. This book's

subject matter is done beautifully. This is an M/M book involving two characters with names Beast and Knife. How can you go wrong with that?!! This story covers topics that include learning differences, sexuality, hearing loss, sign language, and parenting. It also has the wonderful topic of friendship and the challenging journey of any kind of relationship. Yes it is an MC book so it has some darker elements but what was really surprising to me were the touching moments. I guess I shouldn't assume since it is about two men that they are not able to show an emotional side. My bad!!! I definitely recommend this book and the entire series. Yes this book can be read as a stand alone but boo hoo if you don't read them all. Happy Reading!!!!

4.5 stars, would have given it five if the book had been longer, in fact this one needs a sequel, after discovering mm, I've found it hard to find good books, well written books with characters that I want to re-read. This book was fun, as in funny, passionate, loving, but I needed more, I want more of these 2, in fact I want another baby for them it would be funny to see them choose a woman to have their baby, to go through the whole process, siiiigh, yes I know, but I can dream. Lila needs to think about doing more alpha male mm books, friends to lovers, focus on that along with her Mc stories ;) I love friends to lovers or gay for you and Lila does beautifully, thank you for giving us this story and here is hoping that you'll read this review and well get inspired, maybe a fighter, still not at the risk of you shutting down your Mc series because they rock. THANKS.

I loved Beast and Knife!! What's not to like, you've got two alpha males both hot-as-f**k from the cover and their descriptions, add in the fact they're bikers and there's a surprise baby and a dog then you've got a great read! It starts out with Beast at one of the lowest points in his life and the way it was written you want to reach out and try to help shoulder his burden and to make everything better and with Knife being a bit of a d-bag at the time (cause he's scared and you know how some guys act when they get scared smh) you're a little unsure of how things will work out. But like Lila Rose has done in everything else I've read of hers she doesn't leave you hanging too long she manages to weave a web that as a reader you get stuck in until you've finished the book in one sitting because you can't stop until you find out what happens!!

Oh this was equal parts heartbreaking and exhilarating and I totally enjoyed this latest in Ms. Rose's Hawks MC series! Knife and Beast are friends, best friends actually, able to get what the other is "saying" without words. One night of passion during a run has Knife running fast and far from Beast and when Beast faces a life-altering crisis, he finds himself without his friend by his side. But....things

change and while Beast is immersed in feeling sorry for himself on many levels, his Hawks brothers are stepping up and learning what they need to in order to be there for HIM. Funny, hot, poignant - so many things happened in this book that it kept this reader guessing!

Lila Rose has done it again!!! Hear Me Out was everything I knew it could be. I am having a really hard time finding the words to say just how much I loved this story. Beast and Knife are both hardcore bikers and the fact that they fall for each other in no way takes away from that. Watching the struggle they go through to find their forever was full of all the feels readers have come to expect from this author! Throw in the extra components of Beast's hearing loss and the news that gets dropped on Knife and you have the makings of another fantastic book by one of my very favorite authors!!! Thank you, once again Lila Rose, for another awesome book!!!

Knife and Beast are truly magnetic and together they are explosive, but then you add in Nevaeh and it is magic!! This is the only book I've read in this series but I still loved it. I wasn't lost not knowing the other characters but now I will have to go read their stories too!! At times my heart truly broke for Beast and his situation him learning to deal with his situation, and at time Knife was a pain but they came together and it was the best. This book had me absolutely cracking up at times too!! Good book would defiantly recommend this read for lovers of MM romances.

This book was amazing, I freaking loved it.. of course there were times that I wanted to slap or punch one of the guys. But honestly beast and knife was so beautiful to see come together! And throw in nevaeh and two bikers going la la of 7 month little girl!! I loved this book, I cried, smiled and wanted to throw things... then laughed my butt off.. especially the wax scene.. "Mensa hold me " was priceless! I can't wait to see what going to happen next!!!!!! You really out did yourself mrs. Rose!

This is my first book by this author and it won't be my last. I was surprised at how much I enjoyed this book. I don't usually read m/m romances but I'm glad I read this one. I didn't want to put this one down nor did I want it to end. The story was beautifully written and while it had heartbreak it also had a little bit of humor thrown in.*I voluntarily read and reviewed an advanced copy of this book*
