Fresh from the Marvel ultimate universe is Miles Morales, aka the new Spider-Man in town. Watch (or read, in this case) as Miles takes on foes like a demon from hell, Black Cat, school, and his own grandma (no joke)! But seriously, overall this was a fun read, and it kind of reminded me of the old Spider-Man comics where Peter Parker was still in school. If you are already a fan of Miles, you should enjoy this book. And if you are new to the character, this book serves as a great jumping on point to give him a try. In other words, this book perfect for anyone who's interested in Miles Morales and his exploits.

I was never a Miles Morales fan so when they put Peter Parker on the backburner I was highly skeptical to say the least. I wasn't just pleasantly surprised though, I was blown away! The character interactions between Miles and his buddy are great, and his cute little crush on Ms Marvel had me smiling inside. While the overall plot wasn't memorable the dialogue was. It was charming, funny, and dramatic all at the right moments. I personally can't wait to read Vol 2; this book was well worth the buy.

Comic arrived well packaged and in great condition, Excellent seller! This is a really great history, Miles Morales it's an awesome spider man! can't wait to read more of this! Thank you so much!

I'm buying the whole collection now Miles Morales is by far the coolest Spider-Man I've read would love to see a movie

So much humour and such great artwork! I absolutely love this one!

For 20 years in my youth I read Amazing, Spectacular, and Web of SpiderMan. I've been away from the series for 10 or so years. This new spiderman series captures a lot of what I so enjoyed in my youth.

I walked away from Spider-Man for a while. But in ultimate they brought on a really cool new version of him. Miles is legit, read the new spider man

I love this story! I'm now officially a fan of Ultimate Spider-Man and I cannot wait to read more and more!
