Awesome Book! I felt that I never had time to meal prep before, but just following these easy recipes and having the right mindset. I'm getting in shape now. Thanks

Great this book. Meal Prep is the ultimate beginners guide to meal prepping for weight loss, toning and muscle gain easy, clean, low, carb, beginners, health, meal prepping, simple, safely, diet, delicious, recipes. I like this book!

I like this book. For a person like me who rarely got time to prep anything, just rush to work. Its not that difficult and the recipes are tasty and healthy. Thx

This book is short, and doesn't seem to cover the material that is advertised on the cover, i.e. specifically a guide to using meal prep techniques for toning and muscle gain. There are lots of little tips here and there sprinkled throughout the book, but no cohesive plan for someone looking to get started with meal prepping, EXCEPT for samples focusing on weight loss including a basic menu. The table of contents was printed upside down in the book that I received, and the book itself as noted above is rather short, although there is no deception about this, as you see the number of pages on the product entry. I think this title should have remained a downloadable book instead of having a print version produced, not a lot of substance here. Not recommended.
