Canon And Creed: Interpretation: Resources For The Use Of Scripture In The Church

Synopsis

How does the church understand the relation between its Scripture and its creedal formulations? No one is more qualified to address that question than Robert W. Jenson, who shows how canon and creed work together and interact and that neither is an adequate or sufficient to guide Christian faith without the help of the other. His book will enable contemporary interpreters and teachers, pastors, and laity to deal with the questions and tensions that are always present as the church seeks to hold canon and creed together.

Robert W. Jenson is Senior Scholar for Research at the Center for Theological Inquiry in Princeton, New Jersey, and Professor Emeritus of Religion at St. Olaf College in Northfield, Minnesota.

Insightful discussion by Lutheran theologian, Robert W. Jenson, on how our canon of Scripture needs our creedal formulations and vice versa. Part one looks at Israel's Scripture, creedal statements in the OT and the NT canon as *regula fidei*. Part two looks at the canonical text, dogma, and the episcopacy (also relevant to the discussion). Part three looks at creed as critical theory in the interpretation of biblical texts (Gen 1:1-5; Lk 1:26-38; Mk 14:35-36). In his afterword, Jenson expresses dismay at modernity's compartmentalization of biblical exegesis separate from systematic theology. Not wishing for a repristination of premodern theological categories (e.g., law

and grace, free will and predestination), he envisions "all modes of churchly reflection" to be "braided like the branches of an alluvial stream that branches mutually disposed as the momentary flow of discourse suggests. Jenson's book will enable contemporary interpreters (i.e., teachers, pastors, and laity) to deal with the questions and tensions that are always present as the church seeks to retain both scriptural canon and classic creedal statements of faith.

Jenson details how the adoption of the scriptural canon and the creation of the Creed are circular in nature. One was dependent on the other historically and the same is true today. The Creed is Christ centered and so must be the reading of both the Old and New Testaments to be faithful witnesses.

GREAT SERVICE AND QUALITY MERCHANDISE. HIGHLY RECOMMENDABLE.

Jenson is one of the most knowledgeable scholars in this area; he writes clearly and thoughtfully, putting to rest so many false 'historical' guesses with facts and analysis which can be relied upon. It is not so much that I love it, but that Jenson writes what is true about canon and creed. Credit must go to Interpretation for reaching outside their normal tradition to get the best person for this piece of work.

Canon and Creed is well done but requires some theological education. I was hoping to use it for a church school class, but it is a difficult read which requires some biblical and historical background and vocabulary.

Great resource for those looking for Methodist systematic theological resource's.

Robert Jenson invites us to see questions of canonicity in terms of God's story. Canonization, such that it is or can ever be, is not a static process (ironically, both Protestants and EO/RCC act like it is). He notes, "The Old Testament and the New Testament are Scripture for the Church in different ways" (Jenson 14). The OT was Scripture for the apostles before they were apostles. It is antecedent to the church's formal existence. Jenson suggests that the real question is, "Can Israel's scripture accept this proclamation of Jesus' resurrection and this new movement within Israel?" (20) Jenson further claims that the "new gospel was justified by Israel's scripture, never the other way around" (21, quoting Campenhausen, *Entstehung*, 68). His thesis: "From the beginning the church has read the

Old Testament as narrative of God's history with his people (Jenson 20-21). The most promising thing about this book is the connection between canon and story. Jenson does not develop this in any real detail, but it is a fascinating insight nonetheless. The canon emerges from the narrative. We can tie in with speech-act of God's identity. The narrative (cf Irenaeus on divine covenants structuring) justifies the claim that the canon emerges as a creation of the divine speech-act.

This is one of the more compact books in the INTERPRETATION series, with 12 short chapters. While the chapters are easily read and clarity is brought to the relationship between canon and creed, this is a very erudite book and I have to admit, much of it went over my head. But the author does expound on some subjects that make for fascinating reading. His explanation for instance on the Parable of the Sower in Chapter 6 is nothing short of brilliant. And Chapter 3, CREED AND THE OLD TESTAMENT, is perhaps the best in the book. I would disagree with only one observation the author makes toward the end of the book, when he writes that most Christians pray to Mary. Most Catholics may, but I would be shocked if any Protestants do at all. This protestant certainly doesn't! Overall, a good teaching tool for pastors and lay teachers.
