Customer Reviews

I ordered this hoping to find some good gig tunes, and I literally found ONE out of all 92 songs that I can use. It's in a terrible range, all on the lower two strings, and the rhythms aren't even close to the originals. As if that weren't bad enough, there are groups of measures of rest that are awkward since there is no accompaniment and sometimes the melody changes to the harmony part, which would be o.k. if the melody were also being played.... Wish I had kept the box to send it back...oh well now you know.

;)

Great

Love it! Great for a child who loves the Fab Four.

Was so excited to see this book have the complete melodies for the cello as a solo rather than just an accompaniment instrument. Delightful!

good

This is one fatty volume of Beatles songs! I love it. Some songs are better for an orchestra, but many are quite nice solo. There are a wide variety of songs. They are pretty basic to play, as well, though not dull.

It is a very good product, my daughter, cellist and music teacher, uses it and gives excellent results, with her and with her students.
