Customer Reviews

Condon, MT Alan Leftridge has served as a seasonal naturalist in Yellowstone National Park and a wilderness ranger in the Mission Mountains Wilderness. He earned a bachelor's degree in biology at the University of Central Missouri, a secondary teaching credential from the University of Montana, and a Ph.D. in science education and cultural geography at Kansas State University. His career has included teaching high school science in West Yellowstone, science courses at Miami University, and environmental studies at Humboldt State University. The Best of Olympic National Park is his fifth book with Farcountry Press; his other titles are The Best of Yellowstone National Park, The Best of Glacier National Park, Glacier Day Hikes, and Going to Glacier National Park.

This is a great book. Not too long and just the right amount of information for someone coming for a visit to the PNW to read up on before their trip. Great pictures.

I live in Port Angeles and find the book to be very well done and helpful.

Great for quick info. This guide book gave me a huge head start for what I would see and learn about in the park. I went in March though so there wasn't much animal wildlife, but so very, very green!

Very good book, with current information and good pictures and understanding the layout of the park.

This book is proving to be very useful in planning our up coming trip. It is excellent.

Once I realized this was a book about the park and not a quantum fold that held the entirety of the park inside of it... It met all of my expectations. Good choice.

This was very helpful during my vacation. I recommend it.

Nice! A really well thought out, organized book! First thing I noticed was how succinct this book was. No fluff or junk you had to wade through, and the descriptions and pictures got straight to the point! Where to go, what to see, what to expect, all clear and concise with pictures to really enforce what you'll experience. Great to have prior to heading out to Olympic. It helped us really focus on what we wanted to see and how to plan, rather than our usual driving for miles, figuring out what we're doing on the fly. I kind of hope Alan does a couple more!
