Auerbach's Wilderness Medicine, 2-Volume Set, 7e

Synopsis

Now in its 7th edition, *Auerbach's Wilderness Medicine* continues to help you quickly and decisively manage medical emergencies encountered in any wilderness or other austere setting! World-renowned authority Dr. Paul Auerbach and 2 new associate editors have assembled a team of experts to offer proven, practical, visual guidance for effectively diagnosing and treating the full range of issues that can occur in situations where time and resources are scarce. Now in an exciting 2-volume set that includes convenient online access, this indispensable resource equips physicians, nurses, advanced practice providers, first responders, and rescuers with the essential knowledge and skills to effectively address and prevent injuries and illnesses – no matter where they happen! Brand-new 2-volume format ensures all content is available in print and online to provide you easy access. Face any medical challenge in the wilderness with expert guidance from hundreds of outstanding world experts edited by Dr. Auerbach and 2 new associate editors, Drs. Tracy Cushing and N. Stuart Harris. New and expanded chapters with hundreds of new photos and illustrative drawings help increase your visual understanding of the material. Acquire the knowledge and skills you need with revised chapters providing expanded discussions of high-altitude medicine, improvisation, technical rescue, telemedicine, ultrasound, and wilderness medicine education. Ten new chapters cover Acute High-Altitude Medicine and Pathophysiology; High Altitude and Pre-Existing Medical Conditions; Cycles, Snowmobiles, and other Wilderness Conveyances; Medical Wilderness Adventure Races (MedWAR); Canyoneering and Canyon Medicine; Evidence-Based Wilderness Medicine; National Park Service Medicine; Genomics and Personalized Wilderness Medicine; Forestry; and Earth Sciences. 30+ Expert Consult online videos cover survival tips, procedural demonstrations, and detailed explanations of diseases and incidents. Expert Consult eBook version included with purchase. This enhanced eBook experience allows you to search all of the text, figures, images, videos, and references from the book on a variety of devices.

Customer Reviews

"This is the essential book for healthcare providers wishing to enhance their knowledge of urgent or emergency self-care and/or care for the masses during personal travel, exploration, or medical relief situations. The pairing of the print book with online access provides readers the portability required for world travel. This seventh edition is essential to present current state-of-the-art and cutting-edge information. As an emergency medicine physician and wilderness medicine enthusiast, I turn to Auerbach's as the authoritative gold standard." - Keith D Henry, MD, FAAEM (Regions Hospital and Level 1 Trauma Center) for Doody's Review Services

Dr. Paul S. Auerbach, FACEP, FAWM, is the Redlich Family Professor of Surgery in the Division of Emergency Medicine at Stanford University School of Medicine. He is the world's leading expert on wilderness medicine and a prolific author. He is the Editor of *Wilderness Medicine*, and author of *Medicine for the Outdoors* and *Field Guide to Wilderness Medicine*. Dr. Auerbach holds his MD from Duke and completed his internship at Dartmouth and residency at UCLA. He is certified by the American Board of Emergency Medicine. He has been recognized as a Hero of Emergency Medicine by the American College of Emergency Physicians and received the New Orleans Grand Isle Award for Science from the Academy of Underwater Arts and Sciences, the Founders Award from the Wilderness Medical Society, and the Outstanding Contribution in Education Award from the American College of Emergency Physicians, among others. Dr. Auerbach has served as a volunteer physician in Haiti, Nepal, and Guatemala. Chief of the Massachusetts General Hospital (MGH) Division of Wilderness Medicine, Director of the MGH Wilderness Medicine Fellowship. attending physician in the MGH Emergency Department, Associate Professor of Emergency at Harvard Medical School (HMS).

really a good all type truma book...but one person cpiuld not pack all the stuff they feel you should have along for "just in case" nor could a mere mortal afford what they suggest you have....but the

trauma tx/dx is superb...makes me realize what i have been doing is basically correct for these times less all the new toys..i'm pretty much old school...unit 1 bag old school

Best book on wilderness medicine ever. Stunningly comprehensive and well laid out work. This is the "Bible" of wilderness medicine. The addition of new editors is appreciated. Paper copy is great for home or office, the electronic version great for use in the field.

comprehensive, easy to read and to understand, updated, invaluable source for the Emergency physician

an absolutely wonderful set of books for the serious wilderness medicine student and practitioner

Terrific review with recent references. This is the bible of wilderness medicine and can be dense. A MUST have for the practitioner
