book! A decade ago, Frank Warren began a community art project that captured the popular imagination and became a worldwide obsession. He handed out postcards to strangers and left them in public places asking people to share a secret they had never told anyone and mail them back to him anonymously. More than half a million secrets, 600 million hits to the award-winning PostSecret blog, and five huge bestsellers later, the PostSecret phenomenon is bigger than ever. By turns this funny, heartbreaking, thoughtful, and moving, this compendium of graphic haiku offers an intimate glimpse into both individual private lives and into our shared humanity. Included in this compelling new book are dozens of the best archived secrets from the original PostSecret app; inside stories about the most controversial secrets Frank Warren has received; moving text from the new PostSecret play, foreign secrets, "puzzle" secrets, and much more!

I'm always pleased with a new PostSecret book, and this one was no different. In *The World of PostSecret*, Frank Warren also has a series of secrets from the now unavailable app. He talks about the app as well and why it was taken down. My favorite part here was where people found friends through the app or found comfort in the replies they got to their secrets. He also offers a glimpse at some of the international PostSecrets and there is even some commentary from his beloved mail carrier. Frank talks about his own secrets; there is one in every book. And he wraps up with what is the perfect secret. I always find some of my own secrets there on the page, written in someone else's hand writing just as Frank suggests. You'll know them when you read them because they make you get teary eyed, or your heart skips a beat, or you hold your breath. There is a piece of everyone here in the world of PostSecret.

A brief history of this book...a little over 10 years ago, Frank Warren gave out postcards, asking random people to decorate a postcard and write a secret that they had never previously revealed. The postcards were then mailed back to him for compilation. This is an endearing book, allowing the reader to catch just a glimpse of someone's personal, sometimes humorous and sometimes heart wrenching mini thoughts and secrets. This book is wildly popular with the college crowd as well as anyone interested in a light read, and would make an excellent gift. If you like those confession articles in many of the magazines, you will love this book.

I've been a MASSIVE fan of Frank Warren and PostSecret long before he started putting "our" secrets together in book-form. And was thrilled to see that he finally had another book set for

release, as its been quite some time between books. Each of his PostSecret books are better than the previous! He added a lot of personal touches of his own, to this particular release that made it extra special. Though I received my book in damaged condition due to a packaging error, I loved going through each and every page. There's something special about reading and absorbing someone else's "secret"! PostSecret fans, this isn't a book you'll want to miss! And for those of whom that are new to PostSecret, you'll love it equally as much!

My secret was published on-line several months ago. Bought the book to see if it made it into print. Probably better that it didn't, but enjoying reading through the rest of the book regardless. I've been reading Frank's posts since the beginning and they never fail to amaze, amuse, encourage, and inspire.

Love the concept, loved hearing Frank Warren speak in DC in April 2016, but this book's binding is awful. It came apart the first day I opened it, and now some pages are loose! It's probably a matter of days before I have to just take the whole thing apart and use a hole puncher and rings to keep it organized.

the post secret books are wonderful. they work great as coffee table books for everyone to flip through, you'll always find something new and interesting looking through or something very relatable

If you've read the previous books, you know this is the best. If you haven't read any, this is just as good to start with.

I have enjoyed all of the Post Secret books. It's guilt-free reading of someone's mail or inner thoughts. Alternating funny, sad, and touching.
