Fanning The Flames (Going Down In Flames)

Synopsis

Bryn McKenna has it all, including her smoking-hot knight turned live-in boyfriend, Valmont. Even though she's a hybrid dragon, she's finally fitting into the new shape-shifting dragon world that's become her own. But her grandparents want to ruin everything by making Bryn's nightmare of an arranged marriage to Jaxon Westgate a reality. It doesn't help that Jaxon's father is on a witch hunt for Rebel sympathizers and Bryn finds herself in his line of fire. If she doesn't say, "I do," she'll lose everything. Good-bye flying. Good-bye best friends. Good-bye magic. But if she bends to her grandparents' will and agrees to marry Jaxon, she'll lose the love of her life - her knight. Title: Fanning The Flames Author: Chris Cannon Genre: Young Adult Paranormal Format:

EbookPages: 323Rating: 5Heat: 2Thoughts: Warning!!! Make sure to clear your day and have tissues at the ready for this one won't let you go even after you've finished the last page. I could not put this down, so much happens in what seems like a very short amount of time. I'm still trying to get over my book hangover. I think I like torturing myself, or maybe it's the author, I'm not sure. Part of me wishes that I'd wait for a few more books to come out before continuing but I just can't do it. This is such an awesome series!! I can't believe some of what happened in this installment. There's good news, bad news, happy news and sad news that I'm just having trouble getting over some of it. I haven't picked up a book since I finished it yesterday. The thing with Valmont, and the other thing with Jaxon, then the family. I'm still just floored by what happened and I feel lost. Which means I really need the next book soon but I know that won't be possible any time soon (sobs uncontrollably, not really but yea).

Favorite Quotes:--
"I can either pace, or I can rip someone's head off. Which would you prefer?"
"Can we choose whose head you rip off?"
Valmont asked. "Because that might affect our preference."
---He retrieved the manual and rolled it up like he planned to swat a fly. Ferrin was a pest. She doubted whacking him with a rolled-up manual would do any good, but it might be fun to watch.

Please note that I received a complimentary copy of this work and chose to write a review.

~~I received this in exchange for my honest opinion~~I love all things dragons, so naturally I love this book. But more than that I love the chemistry that the characters have in this book. So, if you have been reading this series, you know what has been going on. Well, I can tell you that if you do not read this book, you will miss out on something HUGE!! I mean, jaw dropping huge that you will not see it coming at all! I know I didn't. Again, Chris Cannon has gone above and beyond my expectations. Her writing is wonderful to read. The chemistry and the angst that the characters have is perfect and you can feel it coming off the pages! I implore you to get this book now!!

Good read. Non stop action along with an emotional rollercoaster. Some tacky language but not much. Clean and fit for younger readers. 16+. I do hope this isn't the end of the story even though it looks like a major triangle is forming. Hate those. The Directorate and Jaxon's father need to hit the ground and not be allowed back up.

I'm not sure if I loved this book or hated it..... No I totally loved it.... But I'm mad at myself about my love of it! The twists and turns in this book were RIDICULOUS! I definitely didn't see them coming,

and while I absolutely love that, I'm also mad bc it means the book didn't go how I was hoping/thinking it would! (I will begrudgingly admit it was even better than my weak brain's attempt.) This book set a dramatic climax for the last book, and I am DYING to see how Chris Cannon will blow my mind next.

Great story! Lots of interesting developments with the hybrid dragons and the gang goes on lots of exploring adventures to find clues. The ending is very sad but leaves an opening for developments of certain relationships for Bryn. I am hoping for Jaxon but you don't see any real developments in this book but we'll see in the next. The book does have some foul language but is a clean book which I like. I am hoping Ms. Cannon doesn't make us wait a year for the next book! Great story!

Action, Romance, and plot twist are what await you in this new addition to the series. This is probably my favorite one yet. You see the characters come more into their own while struggling to live through things no normal Junior in highschool would ever go through. Chris once again hit this on out of the Park, buy her wonderful style of making you feel like you are right their with the characters. A must read not only for teens and young adults but adults as well! Can't wait for more!!!! Small spoiler makes more sense once your done...I'm totally team JAXON!!!!

In the beginning of this series, I wasn't a huge fan of Bryn. She seemed childish and freaked when something didn't go her way. Since the first book, you've seen her slowly mature and take her family' reputation more seriously. As you get to the end of this book, you see her transform into a true Blue (but not in a bad way.) This is the best book in the series so far! You'll smile, laugh, and cry as you read this book. Finally, the book doesn't actually end in a cliffhanger, but it ends in the way that leaves you are frustrated because you crave to know more about how she is feeling and what is going to happen between her relationships between friends, family, enemies, and frienemies. I can't wait for the next book!!!!

So, once again, Chris Cannon has done it again. I spent a whole, precious day off doing nothing but reading this book. I planned to pace myself, but once I started, I couldn't stop. I even rearranged plans so I could keep reading. Each book in this series gets better and better! The characters practically leap off the page! I officially have a love/hate relationship where Valmont is concerned, but I may actually be #teamjaxon now. I won't say any details about the book, since it's definitely worth buying and supporting such an amazing author. If you want to immerse yourself in a world

that just takes you away and makes you believe magic could exist, then I whole heartedly believe you should give this series a try. Totally worth the wait, I can't wait for her to write the next one!
