Child, Family, And Community: Family-Centered Early Care And Education (7th Edition)

Synopsis

Note: This is the bound book only and does not include access to the Enhanced Pearson eText. To order the Enhanced Pearson eText packaged with a bound book, use ISBN 0134290046. With its focus on the socialization of the child, this book helps readers understand how the child develops in a variety of contexts, including the family, community, and early childhood institutions. *Child, Family, and Community* gives readers the tools they need to work effectively with both children and parents in ways that support children to be healthy, secure, and socialized members of their families, and eventually society. Guidance strategies are presented, as well as child rearing strategies that parents, parent educators and other professionals and practitioners can put to immediate use. The author relates the many contexts in which the child exists—“family, school, and community—to Bronfenbrenner’s ecological systems theory, which divides a person’s environment into five different levels: the microsystem, the mesosystem, the exosystem, the macrosystem, and the chronosystem. The Enhanced Pearson eText features embedded video and assessments. Improve mastery and retention with the Enhanced Pearson eText* The Enhanced Pearson eText provides a rich, interactive learning environment designed to improve student mastery of content. The Enhanced Pearson eText is: Engaging. The new interactive, multimedia learning features were developed by the authors and other subject-matter experts to deepen and enrich the learning experience. With its focus on the socialization of the child, this book helps readers understand how the child develops in a variety of contexts, including the family, community, and early childhood institutions. It gives readers the tools they need to become professionals who can work with both children and parents in ways that support children to be healthy, secure, and socialized members of their families, and eventually society. Guidance strategies are presented, as well as child rearing strategies that parents, parent educators and other professionals and practitioners can put to immediate use. The author relates the many contexts in which the child exists—family, school, and community—to Bronfenbrenner’s ecological systems theory. **Invigorate learning with the Enhanced Pearson eText** The Enhanced Pearson eText provides a rich, interactive learning environment designed to improve student mastery of content with the following multimedia features:

Embedded videos. Three or four videos in every chapter followed by reflective questions help to promote classroom discussions. End of Chapter Self-Check Assessments. Embedded assessments with feedback help students assess their understanding while reinforcing learning. Check Your Understanding of chapter content. Embedded assessments with feedback align with, and ask questions about, each Learning Outcome to help students see what they have learned from reading each section.

Janet Gonzalez-Mena has been involved in Early Childhood Education since the beginning of Head Start in the 1960s. She has taught both children and adults in a variety of programs including Head Start, child care, parent education and Early Childhood Education programs in community college. She has written three textbooks and a large number of supplementary texts.

I purchased this book and one other at this time for a class I was taking. This book was in excellent shape as the seller stated. There were no marks, writing or highlights. It was shipped and received as stated in the ad. It was also shipped inside an envelope consisting of its own added protection. The chapters were easy to follow, and the end of chapter questions/discussions were an asset to me as I used them as my study guide material. I would recommend this product to students and

professors alike. I would suggest that professors continue using this book as their guide to create lectures etc I would also suggest it to any persons interested in an early childhood education major and to anyone already working in the field of children and families in order for them to develop a better perspective into how all areas of a child's life impact school performance.

Book was the correct one for the class. Return was easy.

The appeal of this text is that it inspires you to the best advocator for children. The contents are an easy read with relevant information within the social cultural theory that we Early childhood educators are required to understand and work to. It made me think of my own practices and what I could do better. Linda

This is a great resource book for teachers.

This book is an awesome read!!! I've never enjoyed reading textbooks and I've always just skimmed the info that I thought I've needed, this book I read almost cover to cover!! I'm wanting to return to the few portions that I hadn't fully read and read them now!! highly recommend this book to anyone who is wanting to gain more knowledge of how to better understand young children and how to work with them and their families through positive and negative situations! I am so happy to have this book in my life!

Perfect for the class I am taking

I rented this for 50 bucks, I open the digital copy through PC kindle, lo and behold! "This title is not compatible for PC" Goodbye 50\$, guess I won't be doing my homework tonight.

Easy to read, and a very interesting book! I use this in my Child 42 class and I have to say it's one of the best textbooks I've had to read. There's diagrams (Maslow's hierarchy of needs, and things like that) pictures, etc. The paragraphs are small and easy to get through.
