Author Terrance Zepke offers readers a glimpse into what it is like traveling to Charleston in this book: *The Quirky Tourist Guide To Charleston*. The chapters cover must-see places to visit like restaurants and shops - along with helpful travel tips and suggestions and more. But at the risk of revealing too much content of this book, I will say no more about that. Moving on from this book's content and on to the discussion of the cover design, the cover shows four images of the area in and around Charleston. Personally, I would have liked the cover more if there was a person or people on the cover considering that the book centers on traveling that is, in turn, closely connected with tourism. Now moving on to what is inside *The Quirky Tourist Guide To Charleston*. The overall editing is clean and easy to read, because this author correctly adheres to grammar rules, for example. The writer's tone is also approachable and chatty, personally reminding me of being with a tour guide in Charleston. Author Zepke employs a knowledgeable tone too, reflecting her research into the area. In addition, there is not traditional character development; for this book is reflecting on travel to Charleston rather than developing fictional or based on life characters. But in the sense that the author explores the area of Charleston in an interesting, easy to read kind of way, that has been accomplished here with this book. Overall, I rate this book 4 out of 5 stars for the reasons already stated above.
