I purchased this book for my girlfriend and we have taken a few suggested hikes this summer so far. Very well written with maps and great pictures.

While the location of the hikes are in some interesting and beautiful sites, often the hikes are in difficult situations and over longer distances. If you are a part-time hiker and like to hike shorter distances, less than 4 or 5 miles I would suggest you look elsewhere. If you want challenges over longer distances and challenging situations this is probably for you.

This book was for a more advanced hiker than what I am. For the advanced hiker it would be a very good book. Many hikes are very long and I was looking for shorter day hikes. These hikes would be good for overnight camping.

Had done 30% of the hikes before I bought the book; now have done 75% of the hikes in the book. PAY ATTENTION TO THE DIFFICULTY RATINGS; THEY ARE SPOT ON!

More up-to-date than most of the 'Falcon Guides' for New Mexico. Gives adequate detail for most 'day-hikes'. Really not for the backpacker/ overnighiter.

I guess I was expecting a bit more from this guide. It give very little information on the actual hike and what you might see. What photos it does have are terrible B&W grainy images. The book is quite outdated and makes no mention of certain areas that are now quite popular for hikes. For the low cost however, I guess you can not go wrong buying it if only to get directions to the sites and parking info.

I like the book, but I think in an attempt to get all 100 hikes in one book that too many details were left out. It doesn't look easy to find the trails for a new comer to NM and a little more detail on how to reach the trail heads would be appreciated.

Good book to keep in your car for those impromptu hiking opportunities. Good maps and directions to trail heads. Descriptions are pretty accurate.
