It's a fun coloring book, but the images are very low resolution. Looks like something that was just enlarged in photoshop, which makes all the detail lines very blurry. This becomes important with tiny detail patterns like these coloring pages. Also, the pages are not perforated so you have to cut them out. Super annoying.

Awesome! This is a great coloring book that anyone will definitely have fun and its very well presented and well illustrated. I really enjoyed this coloring book and I will definitely recommend this book to anyone interested!

Great and ideal book to express your feelings. This has lots of unique design that is totally nice. Expressing feeling in a proper way helps a lot not only to our mood but also helps us to be more creative in such way. amazing book. I recommend to all

This book is really amazing and useful book. I just love this colouring book. It's really super. Highly recommended. Boost to buy it

This is one of my favourite coloring books! I have a few but this is the only one I've seen so far that has the black backgrounds on the pages. I love it, I wish more artists would do the same. I had no problems with my markers soaking through although I always put a piece of paper in between the pages to soak up ink just to be on a safe side. The style is consistent throughout the book and the designs are all different and entertaining. Both colored pencils or crayons or markers will work well in this book.

Excellent guide!! this guide easy to follow and understand. My sister said me that is was a great guide and she is happy with this book. thanks

This a new free book of Randy Johnson. I think it will be good and i am already start reading it.

hahaha I love it!! who can stay angry after coloring these?! clever idea!
