Customer Reviews

When listing the different endings, especially for the different declensions, it does not have some of the necessary macrons above some of the endings. That was frustrating because I had to keep going back to check in my textbook whether the ending carried a macron or not. Some endings are listed correctly, and some are not--I don't know why that is. It did come in handy enough that it was worth the five dollars that I paid for it, though.

Nice chart. Helps greatly.

Competes well with any other chart I've seen.

thick lamination and colorful

Great reference material.

Thanks for quick delivery. The concise review on stiff plastic sheets is great for review. I am thinking of ordering one for myself. This one was for my daughter and she is pleased with it. It goes right into her 3 ring Latin binder.

Adding this to my vocabulary shelf , I'm hoping to soon be a self learned reader of latin, for my own knowledge of part of our language.

This is good for review and as a "cheat sheet." It was worth the purchase price. It is nicely laid out.
