Puppy Training: A Step-by-Step Guide To Crate Training, Potty Training, Obedience Training, And Behavior Training

Synopsis

A puppy is a fun companion who turns into a loyal and devoted friend as he matures. Once you add this bundle of energetic fur to your family, you'll find that you have extra reasons to be playful. It's not all cuddles and games of fetch, however. Puppies need to learn how to behave, and it's up to you to show him how to live in the world. This book features the best methods and step-by-step instructions on how to train a new puppy. This book covers: How to puppy-proof your home Puppy training tips Leash, crate, and potty trainings Six obedience commands that every dog should learn How to stop destructive behaviors Training a puppy takes patience and consistency. This book will help you enjoy a hassle-free lifetime with your new best friend. Download Puppy Training now!

Customer Reviews

It's a good instruction book that is best suited for a first-time dog owner. It has beautiful photos of various dogs which helps the book a lot visually. It's an easy read with some great tips. The paragraphs are broken up very neatly instead of being long and compact. There's some really good info in the book like poisonous plants, the kind of collar to choose, click training, etc. I highly recommend for someone who is getting a puppy for the first time. Thanks to Ms. Chandler for the opportunity to review her book, and the best of luck for her success with it.

This is a great book on Puppy Training. All of the things, tips and guides that I need to know about how to crate training, potty training, obedience training, and behavior training are already included

and well written inside. Julia Chandler has done an incredible awesome job in compiling and creating this book. Also the unique part of this book is the compilations of the "how to stop destructive behaviors". Very informative, useful and well explained. This book is really a great resource for those who want to learn more about Puppy Training.

Nice basic puppy training book. Well written and easy to understand. I recommend for first-time puppy owners or as a reminder for those of us who have raised multiple puppies over the years.

Awesome book for anyone that is gonna get a puppy. Very informative book to have. Especially for a first time puppy owner.

very helpful tips and reminders for housetraining dogs. good source of research for tips. great price for a small paper back book.

Exactly what I needed for my dogs.

The title saying step-by-step is deceiving this book is superthin and does not give much detail I felt most of it was common sense I wish I could return

first i recieved this copy complimentary for my honest review. This is a good book for someone who is considering buying a puppy or has one they are bringing home. It is an easy read, and covers areas like getting your home and yourself ready for a puppy, so that the puppy is safe and you enjoy your experience with them. poisonous plants and foods are discussed, and ways to potty train your new puppy is discussed in detail as is training your puppy to behave and do simple commands. Please be ware that i do not feel this is really a book, it is more like pamphlet, as it has 30 pages then about 6 pages of other books the seller is promoting and 2 of the 30 pages are pictures of dogs, so really only 28pages, i dont feel that is a book however it does cover a good amount of information in those pages. I would suggest some links to helpful puppy web pages suppliers etc.
