## **Customer Reviews**

This is a compact guide that's packed full with a lot of useful information. As explained in the book's description, it covers the 20 main attractions in Rome. I found this book very easy to read, and the information about each attraction made it more interesting to visit. Even though the maps are small, they're handy as they'll help you get orientated. The photos are good, and the contact details for each attraction will also come in handy. All up, this guide is great value for money!

This is my second Travel Bug Guide (I also have the London one), and once again, I found this to

be very handy. I was only in Rome for a short time, so I didn't want a comprehensive guide showing me hundreds of sights in vast detail - I wanted a compact, easy guide so I didn't have to spend much time. This is exactly what I was looking for. Straight to the point, it gives easy and all the essential information for each sight, and great value for money. I chose about a dozen of them and had a great time. Each location has images and a Google map of where to find it. I read a couple negative reviews, and they say it's not comprehensive. Of course not! If I wanted that, I would have chosen a thick guide book like Fodor's. If you only have a day or two in Rome, I highly recommend it. It covers all the best sights and you can plan a satisfying day in ten minutes.

I found this book to be well written - which was a special surprise. We're planning a trip to Italy and I can see Ms. Booth has expertly assembled our entire Rome itinerary for us. The pictures are wonderful and there is a map for each of the 20 attractions showing its location in the city. The book provides an interesting and comprehensive description of Rome and each of the 20 attractions. I am anxious to see more 'Travel Bug' guide books.

This relatively short travel guide gives good-sized pictures and descriptions of many of the must-see locations in Rome. Helps one get oriented to highlights before one gets there.

A very thin guide. Not much to it. Fine if you just want a quick overview of the major sites.

Great book! Easy to read and it gives all locations and hours and days of business. I would recommend this to anyone who has never been to Rome like myself because it will help you decide which attractions are priority to your own individual tastes.

Some valuable information. Not very detailed.

Some background information but not especially helpful.
