Customer Reviews

I was a bit leery about this book, to me "30 min or less" usually means lacking in flavor and such. Boy was I wrong....quick CAN be fabulous! I have probably gone through almost 1/3 of the recipes in this book so far and every one of them has been wonderful. Flavor, texture, and vegan too boot! Who could ask for more? Even non-vegans find everything delicious and asking for more! I purchased the Kindle addition and it is presented with easy to follow recipes,(with most items I already have at home) and with an easy to use interface. A really good book to start off if your trying to eat a more plant based healthy diet.

At first, I thought vegan was the main theme of this book and it most definitely is. But I was really surprised that 4 of the dishes I prepared so far took a little over 20 minutes. That's under the 30-minute claim and just enough for me to really love this book. I have plenty of favorites with many of them in the dessert and salad categories.

Love how easy and straightforward the recipes are. No fancy ingredients, no hours spent soaking, dicing, chopping, prepping. Truly 30 minutes and under. Basic recipes, but perfect for putting food on the table every day.

Lots of interesting recipes to try and also to discover tastes not using meat . I always like to try out new recipes and look forward to trying these out very soon.

Great Book!

Great recipes . easy . Sometimes you just don't meat.....

I have never seen a cookbook with so little information and such uninspiring recipes. I would not purchase another of her books and do not plan to use this one.

same as every other vegan cook book
