Best Sudoku books

In the past I would buy sudoku books and found it frustrating as there were so few medium puzzles. This book is great. A few are quite challenging, maybe a little over medium but most are just challenging enough so you are not bored. I highly recommend this book

This is a great sudoku book for the addict who wants a challenge but not too hard. Wish there were more in this difficulty range. Thanks, Will Shortz!!

The puzzles are fine. The paper is very low quality. Holding the book in my hand my mechanical

pencil pierces the paper often. I have to erase carefully or after a couple of erases the paper can tear.

My husband loves sudoku books, but all of them are not created equal. His favorites are the books done by Will Shortz because they're just hard enough to be a challenge, but not so simple they're boring. In Short, they're "Just Right."

Backpack material and safe to use in public places such as subways, buses, etc.

If you like medium puzzles that can be solved with some reasoning and no pencil marks, or very few, this is for you. When I came to the end of this book, I wondered where I could find another this good. Then it came to me: just get another copy of this book! I am now on my third. Still loving it.
