Customer Reviews

I run a foul ball tracking and fan website and app and also have inventions for use in sports stadiums. This book's given me all sorts of inside knowledge about the laws that I need to know. I recommend it for all interested in sports, even if you're not an attorney.

Great condition

Gives a great overall view of this modern type career for both men and women. Provides the nuts and bolts of the career.

I regret that this book is poorly written; I didn't take Sports Law in law school and was hoping to get a basic grasp on the subject. Unfortunately, a lot of the book is worded poorly and isn't very clear--I find myself using Google to clarify very basic concepts that this book leaves as ambiguous.

Unless you plan to practice in this field, this book will not interest you. But if you do wish to be a sports agent, then this is a great book to learn about all the ins and outs of the process.
