Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.

Will use next week in basin. Daily rain expected so this quick guide will behandy.

Very useful, took it to a trip in Brazil and provides the basics.

Very limited information and small drawings. I have seen much better

Product as defined. Haven't had a chance to check it out in rainy conditions, hence the 4 stars

This complemented the Peru birds foldout I got nicely and served really well as a supplement to the larger field guides that I wanted on our Peru trip but didn't want in my pack for hiking.

Very handy but missed some common birds.

Super useful in the jungle. Good pocket size.

Very helpful during our recent cruise and helped us enjoy the wildlife we saw along the way
