Customer Reviews

Learn How to Quickly Solve Difficult Series 7 Test Questions Here's a little "secret" about the Qualification Examination for General Securities Registered Representative: the Series 7 Test is what we in the test preparation field call a "content driven" test. While some tests are looking to see what you are ABLE to learn, the purpose of the General Securities Registered Representative Examination, offered by the Financial Industry Regulatory Authority (FINRA), is to test your understanding of what you have already learned. The goal of the Series 7 Examination is to use a standardized testing process to create an objective assessment of a test taker's knowledge and skills. In other words, it's more about what you know than your ability to solve clever puzzles. This is good news for those who are serious about being prepared, because it boils down to a very simple strategy: You can succeed on the Series 7 Test and become a General Securities Registered Representative (RR) and Account Executive by learning critical concepts on the test so that you are prepared for as many questions as possible. Repetition and thorough preparation is a process that rewards those who are serious about being prepared, which means that succeeding on the Series 7 Test is within the reach of virtually anyone interested in learning the material. This is great news! It means that if you've been worried about your upcoming Series 7 Test, you can rest easy IF you have a good strategy for knowing what to study and how to effectively use repetition to your advantage. But it also creates another set of problems. If you tried to memorize every single possible thing you can for the Series 7 Test, the field of possible things to review would be so huge that you could not hope to cover everything in a reasonable time. That's why we created the Series 7 Exam Flashcard Study System: we have taken all of the possible topics and reduced them down to the hundreds of concepts you must know and provided an easy-to-use learning method to guarantee

success on the Series 7 Test. We wanted this system to be simple, effective, and fast so that you can succeed on your Series 7 Test with a minimum amount of time spent preparing for it. --Here Are Some of the Features of Our Series 7 Exam Flashcard Study System

Study after study has shown that repetition is the most effective form of learning- and nothing beats flashcards when it comes to making repetitive learning fun and fast. Flashcards engage more of your senses in the learning process- you "compete" with yourself to see if you know the answers to the questions, and the flipping action gets you actively involved in the learning process. Our cards are printed on heavy, bright white 67 lb. cover stock, and are laser printed at 1200 dpi on our industrial printers- these are professional-quality cards that will not smear or wear out with heavy usage. We cover the major content areas on the exam. Our flashcards include an edge that is micro-perforated, which means that you are much less likely to have a painful papercut on your fingers when moving quickly through the cards. Our cards are portable, making it easy for you to grab a few and study while waiting for the bus or the doctor, or anywhere where you have a spare moment that would otherwise be wasted. Our Series 7 Test cards are written in an easy to understand, straightforward style - we don't include any more technical jargon than what you need to pass the test. The cards are a generous size- 3.67 x 4.25 inches- they fit perfectly in your hands and they aren't so small that you have to use a magnifying glass to read tiny type- all questions and answers are in a normal-size print for easy studying. Our cards include in-depth explanations- you won't see any "one word" answers on our cards that require you to go get a textbook to understand why your answer was wrong- all of our cards include generous, thorough explanations so you not only get it right or wrong- but you also know why! We use a font created by Microsoft to make reading easier- this will enable you to absorb more information painlessly during late night study sessions. Our system enables you to study in small, digestible bits of information- unlike using boring textbooks, flashcards turn learning into a "game" you can play until you've mastered the material. It's easy for a friend to help you study- they don't even have to know anything about the Series 7 Test- if they can read, then they can quiz you with our flashcards!

Now, let us explain what the Series 7 Exam Flashcard Study System is not. It is not a comprehensive review of your education, as there's no way we could fit that onto a single set of flashcards. Don't get us wrong: we're not saying that memorization alone will automatically result in a passing Series 7 Test score- you have to have the ability to apply it as well. However, without the foundation of the core concepts, you cannot possibly hope to apply the information. After all, you can't apply what you don't know. Series 7 Exam Flashcard Study System is a compilation of the hundreds of critical concepts you must understand to pass the Series 7 Test. Nothing more, nothing less. --If you think there's even the smallest

chance that these flashcards will help you, you owe it to yourself to try them out. Don't let fear or doubt stand in the way of your opportunity to achieve the test score you need to fulfill your dreams.

Love these - they really made a difference in passing on my first try. I then gave them to some co-workers who have been studying. One person had failed twice. She said once she started using these, it just "clicked" - and she passed with room to spare.

These have spelling and grammatical errors. These flash cards are \$70 for PAPER that has ERRORS. That's insane. It's also important to note that these flash cards cannot be used as a memorization tool, which is how I assume most would plan to use them, because they are exceptionally long and cover more than one topic per card. The wording of the regulations and rules is not how they are presented on the exam (these reference rule numbers rather than specifying the names) and make it harder to make the connection to the materials. Even as a supplemental aid to my STC materials, these were more confusing than necessary.

The Series 7 is a really hard test. These cards were useless. Pay heed to the other reviews that are critical of the approach these cards take. They are not at all designed to help the learner learn the concepts nor are they helpful in drilling to support the concepts learned in another format. The answers are too long, have spelling and grammatical issues, and are not at all up to date. My sponsoring agency purchased an in-depth curriculum and provided a study coach. Despite spending 250+ hours studying, I missed passing the first time by 2 questions. Not at all the fault of these cards, but just highlighting the difficulty of the test itself. My time spent tearing the cards apart and putting them into meaningful and manageable categories could have been better spent.

Each one of these flashcards simply says "Describe [concept x]", making this set of flashcards one of the most useless I have ever seen. The author has no right to call these flashcards a study system. Appalling useless to the point of fraudulence.

I bought the Series 7 Exam Flashcard Study System for my son to study for the exam. The Series 7 Flashcards are not exactly "flashcards" as you are familiar with but more cards with a sometimes vague question that is answered essay like answer. With the flashcards, they should have created more specific questions but that being said these tools did assist him in passing the Series 7 Exam.

Good but not great. Too verbose. Unlike their name, these aren't cards that you can quite read in a "flash". Each card is about as dense as a wikipedia article. Not to say that the content isn't relevant, because it is, and I found these cards useful for one thorough round of review but not something i can actually count on to make a difference in my prep for this test. Looked at them once and probably wouldn't waste the time of doing it again. You're better off taking practice tests and studying off your own notes/flash cards.

Study materials are exactly as advertised. Due to some recent financial regulatory changes, a handful of monetary figures were somewhat outdated, but I'm very happy with the product.

Ridiculous cards. Too wordy and not representative of test questions
