It's the script, so it's a lot of fun.

This is the second script I purchased for my Kindle. If I had waited to purchase it instead of buying it at the same time as the other play (Noises Off) I bought, I would not have gotten this. Kindle is not good to use for stage scripts. Scenes you want to review are very hard to find quickly. While I love the show of The Fantastiks, I do not recommend buying it on Kindle.

Great book. Lots of information about the show. Good for a director to have.

Brings back memories of the show.

One of the greatest musicals of all time, The Fantasticks captures all of the elements of the traditional musical in one small, glorious package. This complete script with background material is

excellent.

if you love the fantasticks you will love this book- highly recommended read, and having the words to sing along is great! I don't think there is a musical better than the fantasticks, and given its long run most people agree.

Well the text is there but the formatting is the strangest ever seen.. Very cheap looking and as if compiled by first graders as part of a scrapbook project. Would not recommend this at all.

I have been a fan of this production for a good many years. It is a relief to have the lyrics along with the music, to make good listening response. I share this with my family, and they loved it!
