4.5 out of 5 Stars This review is for the first three books in this series: Craving, Obsession, and Possession. I read them all at once, so I decided to review them as a group. I received a free copy of Craving from the publisher and bought the rest of the books released at this time. It was that good! The plotline is top notch. It is gripping, intriguing, full of mystery and plenty of suspense as the series continues. We are dealing here with a very adult subject matter, so for those of you that are squeamish or looking for "safe" books, this is not for you in my opinion. Talon Steele is the center of this story. His past is uncovered as the story unfolds and you will not be able to keep a dry eye. The plotline pursues the resolution and ultimate healing from that event in his past. To do this, Talon is going to need the support of his family and the girl he has finally allowed himself to love. Highly recommended for those of you who love stories with twists and turns, as well as a strong dose of

psychological influence. One note: I could not give this a 5 star rating because somehow the love scenes just did not all do it for me. I found myself (I hate to admit it) skipping them so I could find out what happened next in this story. It could be just me... am I getting old?

This book ties up many of the questions in the first two of this series. Talon Steele is a complicated man because he went through an ordeal of violent abuse when he was ten years old and in the book is currently thirty five. He meets Jade who is the best friend of his younger sister, Marjorie who came to stay for a while . While at the ranch they meet, & fall in love. I enjoyed the read & would highly recommend it to anyone wishing to read a complicated love story. 9-30-16. Terri Davis. Oklahoma City Ok

This book completely captured my attention! Talon and Jade's story is complete...or is it? Talon is healing quickly from his traumatic past, and found love with Jade, but there are more secrets in the Steel family yet to be uncovered. Who left the rose on Jade's pillow if it wasn't Talon? What secrets does Wendy hold about Bradford? Will we ever know these things? I hope so! This is a complicated story...so be sure to read the first two books in this series to grasp the story line. The Steel family is complicated, but they certainly aren't going to bore you! I read this entire book in just a few hours because I couldn't put it down! Ms. Hardt tells a great story, making all the characters come alive!

This story just keeps building. More details about Talon's ordeal are revealed and Jade continues to stumble on to more clues and now that everyone knows what happened to Talon, he's finding it easier to work towards healing. Jade's love has given him the strength to move forward and acknowledge that he has a life worth living and wants to enjoy it with her and his siblings. More and more we're seeing connections between the characters as they search for the men that changed their lives more than two decades ago. This series is ADDICTING!! Rushing off to start Melt.

I could see how Talon could love Jade, but it made no sense how Jade loved Talon. He was a mess. His response to everything with Jade was sex. You as I think, the love story sucked. The mystery about Talon should have been the focus of the story. The romance was nonexistent. The author did a horrible job with the romance. I would give the romance part of the book 2 stars, and the mystery 4. However, I am not reading anymore to get to the truth. I just can't spend anymore money on this story.

What an interesting way to end Jade and Talon's story. This book is loaded! Everything I like in a book is in here... From the suspense, mystery, angst, to the hot, passionate erotic sex between Talon and Jade...it was beautifully written and I enjoyed every chapter of it. I love the Steel Brothers Saga so much and I think I just became a new fan of Helen Hardt! I love her writing style! Hats off to you, Helen Hardt and I'm giving this book 5 stars! Pre-ordered Jonah's book!

When it says "saga" in the title, believe it. I made it through book three more out of curiosity, then storyline. The stories were goo, but not great. And, definitely do not warrant the \$6.99 cost. The bedroom conversation was stilted as were the bedroom scenes. I figured out all three villains by early in book three. I may have continued ready if the book prices were around \$3.99. Lesson learned.

This is the third book about Talon & Jade & it was good to see how far Talon has come after his history. It was very interesting with a lot of secrets coming to light. It was a little less steamy than other two books & a small part still feels his & Jade's relationship is mostly physical. I still feel like there were things left unresolved but I guess I'd have to read Jonah's book to find out more.
