Seeing Double: Heartbreaker, Book 1

Synopsis

Dani Botelli has vowed to step out of her demanding movie star mother's shadow, and is determined to start a new chapter in her life. But two men are making for double the trouble. There's Jake, her police detective almost-ex who wasn't so hot as a husband but sizzles between the sheets. He needs Dani's intuition and visions to help him solve crimes. Then there's her high school crush, Michael, a former NFL pro who's now her mom's hunky lawyer. Working alongside Jake, while keeping her special gifts under wraps, is proving to be more dangerous than Dani realized. She needs to stay out of harm's way - and out of Jake's arms - long enough to find out if Michael is the one. But will her hard-to-explain hunches be the secret that comes between them?

ASIN: B0748VH2QW

Best Sellers Rank: #30 in Books > Audible Audiobooks > Romance > Suspense #86 in Books > Audible Audiobooks > Romance > Contemporary #542 in Books > Romance > Romantic Suspense

Customer Reviews

This book completely stands alone. It has both cursing (no f-bombs) and on-screen sex. If those things will cause you to leave a bad review, you should skip this one. This is story was interesting to me because I don't typically read books with paranormal-type story lines, but I enjoy Tamra Baumann's writing so much that I decided to give this one a try and I was surprised by just how much I enjoyed it. While Dani's 'visions' were a big part of this story, they weren't at all over the top cheesy or eye-roll worthy. They weren't believable but they were silly and fun which made them interesting rather than off-putting. Although this is technically sort of a love triangle story, there is no question who Dani prefers and who she belongs with, so if you don't prefer love triangles don't let that turn you off. This book is written well and carries Tamra Baumann's usual humor and the heart

that she writes all of her books with. If you enjoy a laugh and a book that doesn't take itself too seriously, you'll love this one. I requested and was very generously granted an ARC of this book via NetGalley and the publisher. I was under no obligation to write this review, I did so because I enjoyed the story.

Dani Botelli is the (trying to be) reformed spoiled princess of a movie star mom. Dani is attempting to make a new life where she is independent and standing on her own two feet, but first she must get her soon-to-be ex to agree to a divorce. Jake relies on Dani and her special gift and is afraid to let her go or is just not convinced it's truly over between them. Jake and Dani are so close that it makes it difficult for her new interest, Michael (who just so happens to be her high school crush) to believe Dani and Jake are truly over. I loved Michael with Dani and his struggle to believe she was in as much as he was in the relationship. Here we have a former NFL quarterback smitten with a woman totally out of character for his persona yet so perfect for him. There were so many things in this book that caught my interest and is sure to make for a great series to follow. Dani has been pampered but she wants to be independent and make it on her own. She possesses a special gift that both her mother and grandmother possess as well. Well these women were hilarious together and I can't wait to see how they will be used in future books. When Dani's life is in danger Michael wants to protect her and be there for her it leads these two on a fun, exciting and sexy journey. However, Michael finds it difficult to be all in with Jake ever present and very loving to Dani. When an unexpected visitor throws Dani into a role she never wanted to be in and has her diving into an investigation like none she has ever done before we are sent on a road trip that is entertaining, funny and in a way healing for Dani. Tamra Baumann writes in a way that you are drawn in to the story and feel the heartbreak and passion of the characters. Dani wants to break free from Jake yet when she finally gets the point across that they are over, that she wants to move on, you feel the heartbreak and pain she feels as he concedes and then moves on. Michael captures your heart as he had such strong feelings for Dani only to have her completely cut him off. Years later he discovers those feelings are still there yet he can't trust Dani not to abandon him again. You hurt for Michael yet want him to give in to Dani. Loved the book! Can't wait for the next book!

I think it has to be hard to write a book that has some suspense, some mystery, a little paranormal, humor, characters you'll fall in love with, and a delightful romance, but Tamra Baumann has done just that, and she did it well (great, actually). This is a second chance love story, and those are my favorite. The suspense, mystery, and a bit of paranormal in the story are just icing on the

cake. Dani and Michael were in love as teenagers, but went their separate ways. Seeing Double begins with them coming together again, and the sparks are still flying. I loved Michael so much. He had never stopped loving Dani, but she left him once without explanation (she had a very good reason), so he's guarding his heart. Michael was everything a hero should be. And Dani . . . One of my favorite heroines ever. She's an adorable mess (again, she has her reasons). I don't do spoilers, so you'll just have to read Seeing Double. All I know is that this one is going on my keeper shelf. Whether you love suspense or mystery or romance, you'll love this one.

Seeing Double by Tamara Baumann a fun and flirty four-star read. This is the first book in the Heartbreaker Novels, it's also the first book by this author I have read, and it won't be the last. This is a paranormal romance but if you don't like that genre don't be put off as it's also got a great story that you could almost oversee that. (The visions in question aren't crystal ball and fringe veil). I personally enjoy a good paranormal romance so I enjoyed this aspect, but I know not everyone does. There are some scenes of an adult nature and some language used that's more mature but it's not every other word. Overall Tamara Baumann has written a great story both lead males Michael and Jake have great sides to them that are revealed as you read and Dani is great, she's a woman of many talents and some she is happier to reveal. The struggles she faces are honest and you can easily relate. Overall a very good read, if you are in the mood for a sweet PRN or a sweet romance then this is the book for you as it covers both very well.

What happens when you have intuitions and visions. Hmm you soon to be ex uses you to help him solve crimes and the man you want has no idea. Dani is tired of living under her Mother. She wants to live her own life, and get her soon to be ex to sign the divorce papers. She never imagines getting stuck with someone else's child and traveling with the one who got away to chase down the Mother. This really teaches her things about herself. This was a romantic comedy that keeps you laughing the whole way through. The suspense in the plot is fine tuned. I really enjoyed it.** I received a copy from NetGalley in exchange for an honest review**
