Customer Reviews

Catherine Bruzzone has more than 20 years experience teaching languages to children and developing innovative language-learning programs.

After receiving this, I sat down with my boys and tried to start the course. I guess my Type A

personality thought that the CD would go along with the book sequentially. I am fluent in French so I understood what they were saying, but I think you need to actually see the words on a screen (or in the book) at the same time. I wish this was a DVD, and I wish it went along with the book more clearly. Thankfully this didn't cost a lot. I will likely find something else in DVD format for now and come back to this when I can hold their attention better.

I love this book with the 3 CD's, great way to learn French, lots of audio including songs, lots of fun games and activities. This is the best French book I have gotten so far. The workbook that goes with it, is not much, I probably won't use it, it has around 16 pages, but the book that goes with it has around 73 pages, the book is nice, all the pages are in color and has a lot of fun learning inside. I am an adult learning French and I wanted to do it in a fun easy way. I also purchased the book I can read & Speak in French by Maurice Hazan this book is really good too. Each word in the book is a picture and you use the pictures to speak your sentences. I'm glad I purchased both of these items! These books would also be great for young children who want to learn French.

I was extremely impressed with this program for teaching young children French. When I began homeschooling my granddaughter, I decided to include a foreign language. Since I had taken French in college, I thought it would be a wonderful experience for her. The lessons are straight forward and the CD's are absolutely wonderful. All of the activities are fun for her to do and learning French is not a difficult task. She loves her French lessons and enjoys practicing it while listening to the lesson. I strongly urge anyone who wants to expand their children's learning experience to include a foreign language to definitely purchase this product. I love teaching it and she loves learning it.

I bought this for myself and two daughters, ages 6 and 3. We play the CD's while doing art or cooking. We don't do the written exercises, but they are great too, probably best for ages 7+. In the first listening, about an hour while doing art, we learned how to say, "What is your name, my name is". The songs are catchy and fun. They are played a few times during the lesson, so they really sink in. We are learning slowly and playfully, but a dedicated student could move fast with these. Highly recommended!

This French language for children course is excellent. It is very entertaining for my kids (7 and 9 years old) and really holds their attention, which is what I look for with any educational aids. The

songs are catchy, the pictures and colors that the book uses are captivating, and the amount of vocabulary is considerable. I highly recommend it!

Having fun learning French with my daughter

We have been working with this two weeks. It allows the kids to self teach and it not demanding. I enjoy it with them. we wanted something to see if we should pursue French at all. This is certainly allowed them to see if they like French

I purchased this product for my son, age 7. He was tired of the "Muzzy" immersion method as that is dated and he felt the story was geared towards younger children. This is well thought-out for children. There are games that can be played over and over in them. Cutting out pictures and pasting them elsewhere keeps him involved, and he enjoys the songs. We have incorporated many of the words and phrases into his everyday conversation. I strongly recommend this product to anyone considering it, especially grade school children.
