Synopsis

This magnificent sourcebook of animal illustrations, meticulously reproduced from cuts taken from rare eighteenth-century publications, features a wondrous panorama of the animal kingdom — from long-whiskered rabbits and stately reindeer to plumed pigeons, spiny-finned fish, and magnificently patterned conchs. A comprehensive volume containing more than 600 accurately detailed reproductions of copperplate engravings, this collection depicts the full spectrum of the animal world. In addition to a broad sampling of mammals, birds, reptiles, amphibians, fish, crustaceans, and insects, the editor has also included a small but choice selection of plant specimens. Beautiful book, great price!

So many great illustrations/engravings. Some have backgrounds and scenes which is especially nice but not difficult to isolate if needed. These are highly detailed illustrations and some have a very unique style that slightly deviates from realistic and more of an artistic rendering.

Great!

Nice resource for artists!

Although I like the animal illustrations in this book, most of them are so dark that the detail is lost. I am quite disappointed and am going to return it.

I have quite a collection of Dover books concerning art, artists etc etc. which I use as a reference guide for my artwork.

rubbish without color, all the pictures could be found on the internet. don't buy it next time. otherwise you be disappointed.
