Laura Ingalls Wilder (1867-1957) was born in a log cabin in the Wisconsin woods. With her family, she pioneered throughout America's heartland during the 1870s and 1880s, finally settling in Dakota Territory. She married Almanzo Wilder in 1885; their only daughter, Rose, was born the following year. The Wilders moved to Rocky Ridge Farm at Mansfield, Missouri, in 1894, where they established a permanent home. After years of farming, Laura wrote the first of her beloved Little House books in 1932. The nine Little House books are international classics. Her writings live on into the twenty-first century as America's quintessential pioneer story. Doris

Ettlinger, a graduate of Rhode Island School of Design, has illustrated many books for children. She lives in Warren County, New Jersey.

My 8-year-old daughter loves the LH books. I started her on these picture books when she was a toddler. She especially loves this book. She loves the "Pop goes the Weasel" song in it, and she loves that it's about a birthday. If you have a little one that's interested in LH, (or that you want to be interested in it) this is an excellent addition to your library.

The "My First Little House" books are fabulous! I started buying them for my daughter when she was 3, and she's almost 4 1/2 and still loves reading them. We have quite a few of these books now and I would eventually like to purchase the entire series. It was also a coincidence that we started reading them when we were on vacation in Wisconsin, so my daughter thought it was neat that Laura and Mary lived there and she was there too! One funny thing (depending on your sense of humor) - I was explaining to my daughter that Laura and Mary lived a long time ago, so of course her next question was, "Are they dead now?" and this was a frequent topic of conversation for a while when we were reading the books! Not in a bad or morbid way, she was just curious. And we gave one of these books to my daughter's school class as a gift, and apparently one of the children in her class also commented on this! Just thought I'd mention it...

Book was bent.

I grew up reading the Little House Series...now there's a series that lends itself nicely toward little kids. The language is nice and simple to the point where my 3yr. old was excited to listen to it (she could understand the whole book) and yet it's not too simple to be boring to younger elementary kids. My 7yr. old likes to read them by himself! I now own the original set for myself, the "My First Little House" set for my kids and I've even purchased books from this series for kids of my closest friends.

These books are a favorite in our house. Take your young reader back to enjoy a simpler time and

place! The illustrations are wonderful. The stories are wholesome and nostalgic. Highly recommended!

Beautiful and sweet introduction to the Little House characters and stories for small children. My 3 year old LOVES this book; especially the Pop Goes the Weasel part.
