Customer Reviews

Such a great clean romance, filled with twists and turns and takes you on an adventure you never want to stop! I love the way Indiana writes. Pure talent. I've never read a book I didn't love of hers. Her characters are the most interesting people, that you the reader get deeper into as you keep going from one page to another. Very hard to put down her books. I look forward to the rest in the series of Brides ride west.

I loved this book from beginning to end. I couldn't put it down until I finished it. Please hurry with the next one

Great storyline beginning, hard waiting for next book

Loved this book about young ladies having to run from home as their Brother lost them in a poker game. Their uncle took them in and they wanted to make their own way. One of the girls got a job with the mercantile, delivering supplies to a mine where she met a man who she fell for. Events happened that she didn't like so she helped to correct them. A must read for those who enjoy historical western romance kindle books from at a special price and from a duo of authors who keep me entertained throughout the entire book before putting it down.

Another great read by Iniana Wake. I enjoyed this book and look forward to more in this series! I'm glad Laura found true love in George. She knew there was no way George would risk the miners lives as he had been a miner too. He knew the dangers of the mine as he had been a miner himself and he took the safety measures seriously. Laura helped point out the obvious. It was Micheal who had sabotaged the mine safety. I highly recommend this book.

Laura and her cousins run to an uncle for safety. Will they find love or will the uncle they are running from find them. I cannot wait for the next book to see.

I enjoyed this story about the five women who are forced to run for their safety and virtual. The series sounds like it will be fun to read.

A.very good story about a young woman that helps her cousins run away to their uncle for a better life and finds love
