## Customer Reviews

Actually im just purchasing this book today. I have an Smile account, alongside my regular account, but I'd like to know more about Smile and its possibilities. I was and still am excited about this idea that started many months ago. Customer service told me, after inquiring about Smile App, that they are working on getting it set up. After logging into , I type in the search box, Smile. The next time I login and then use the search box I type an A. Then a window drops down from the search box showing several catagories to pick from. Smile should be at the top of the drop down window. I donate to The Nature Conservancy now but it's easy to change the charity or just add another charity to share the donation. (Things may have changed since I signed up but I think the information above is pretty much the same now.) So if you want to donate and have an account, just type Smile in the search box and tap the search button. Computer should answer back telling

you what to do to order things under Smile. It's your same account, I think, just alerting Customer Service of a donator. Whew.....I don't like to type as I'm not very good at it and it's a slow process. Just thought this review might help members take advantage of this nice way to "Pay it forward".

i was seekin help from on how to use their charity program - got this - great job

It was very informative. Oh great find that I would recommend to all my friends, family, and coworkers. I would also recommend it to churches and charitable organizations.

Quick Read, but the advertisement was inappropriate to me. It did not tell me how to list my nonprofit organization.

Not what I expected - I was looking for information on how to start a Smile program and this is geared towards the consumer who would donate.

This little booklet answered a lot of my questions. Smile is an easy thing you can do that cost you nothing but helps a lot.

I have used this repeatedly . And it still works . I love it I am very pleased and would definitely recommend this product! Excellent experience I really like this product and I think it is very suitable for my needs, the price and the value is also very match. I show my friend this item and my friend bought one. it's so useful

A real page turner. Riveting narrative, exciting dialogue... I couldn't put it down.
