# Chocolat: From The Cocoa Bean To The Chocolate Bar

## Synopsis

From the world's finest chocolatier, who originated the bean-to-bar concept, comes this collection of 170 recipes for the very best and most essential chocolate confections. Belgium's foremost practitioner of the art of fine chocolate making shares his passion and his knowledge in this extravagantly beautiful volume. Pierre Marcolini's confections have been acclaimed as the world's most delectable chocolate creations, and his book is a delicious immersion into the world of fine chocolate and a tribute to its majesty. Marcolini was the first chocolatier to create his chocolates according to a bean-to-bar philosophy "an idea born from the realization that just as the finest wines reflect the terroir in which the grapes are grown, so too would chocolate benefit from careful selection from specific estates. Here, he reveals the trade secrets of the art of fine chocolate making: learn how to roast, grind, and temper the chocolate at home just like the professionals and master all aspects of chocolate making. His recipes run the gamut of chocolate possibilities "irresistible creamy sauces, decadent pastries, bars, truffles, and even a smattering of savory dishes "and are beautifully presented and gorgeously photographed in this handsome volume that no chocolate lover should be without.

## Customer Reviews

"CHOCOLAT: From the Cocoa Bean to the Chocolate Bar" by Pierre Marcolini, Belgium's foremost artisanal chocolatier, is a wonder of chocolate creations in an over-the-top volume of goodies! Marcolini reveals the secrets of the art of fine chocolate making which involves learning how to roast, grind, and temper the chocolate at home like the professionals. The photographs of

the delicious concoctions actually take your breath away and make your mouth water. Standouts include crisp milk chocolate-praline clusters; Breton shortbread cookies; chocolate madeleines; chocolate macarons; and chocolate puff pastry. "Epicurus.com" To celebrate the 20th anniversary of Maison Marcolini, Mr. Marcolini has written *Chocolat: From the Cocoa Bean to the Chocolate Bar*. It is both a love letter to his craft and the ultimate guide to chocolate appreciation. It is also one of the best single-subject cookbooks to come out in a long while. "New York Journal of Books" "This stunning volume is the innovator's mouth-watering meditation of the craft that spans from the bean to the dessert (or savory) bowl." "Bal Harbour Magazine

This book is gorgeous: big, bold, and beautiful. Hands-down this is one of the most visually stunning cook books I have ever seen. And the recipes! The chocolates, cookies, cakes, savory delicacies had me drooling on the pages. But this is not a book to teach you how to become a Chocolate Maker. It is not going to show you how to transform cocoa beans into sellable, award winning chocolate bars. The book has a one page overview of the cocoa harvest, fermentation, and drying processes; a one page overview on roasting, crushing, winnowing, grinding, conching, and tempering; and a one page overview on the main varieties of cocoa beans. Beyond those few information pages, the book is all recipes. And I'll say it again, stunning, elegant, jaw-dropping recipes. There is not one item in this book that I'm not tempted to try. So if you want to add cocoa beans to your food, or make amazing looking rustic chocolate bars to impress your dinner guest, this is the book to get. But this is not a book that teaches the Bean-to-Bar chocolate making process.

Beautiful book. Great present.
