Viper's Run (The Last Riders Book 2)

Synopsis

Winter Simmons received the surprise of her life when she discovered the man she had been dating for the last two years was actually Viper, president of the Last Riders. A high school principal, Winter has no intention of ruining her reputation in the community to be with a man who betrayed her trust. Unforgiving, she turns her back on him, only to find that Viper is not the gentleman he portrayed. Determined to find his brother's killer, Loker James kept his identity as President of The Last Riders a secret from Winter. When the truth comes out, he is determined to make her see the real man who can control not only a group of dangerous bikers, but a woman whose life is a rulebook. Unable to prevent herself from being drawn into the very club she despises, Winter is about to lose everything important to her, unless Viper can prove she's more than a moonlight run. The women these men decide they want to spend their life with give in way to easily considering the pain each of these men put them through when they are first getting together. The writer makes the women weak and easy in the beginning considering how each one of the men hurt them in the beginning. Like viper practically using winter for 2 years to get to an uncle winter doesn't even like or associate with. He ends up saying months later when he wants her after she was beat almost to death that he wanted her to know the real him first (he was being a man completely opposite of who he was). But he insisted winter go to this uncle's party that she did not want to go with to begin with but would because she was falling in love . Some of its just not right it was viper fault using that excuse or not. I didn't like the way she makes the women in all of these books at first granted weak and easy and not be able to say no at first again after they hurt them and say really awful stuff to them at first then they tell them how much they loved them and wanted them also they say this when they are having sex. Just Pis##d me off.

I love me a good MC romance, and I'm even down with the ones that are really sexually explicit, that have sex that isn't between the hero and heroine.. What I can't get behind is weak characterization, a lack of motivation for actions that really ought to have some feeling of believability, and too much of a penchant for moments of drama with little explanation. So many plot holes in this story, character descriptions that vary, weak writing and worse editing. I'm intrigued by the concept but it just doesn't hold up to any kind of thought or examination. I get why the men of the Last Riders would be all about having no strings sex within the club, but Begley writes these main characters in such a way that it's impossible to believe them or like them at all. Men that claim they're in love with women, but then have sex with all the women available to them, and speaking of the club's women, you can't have them choosing the open relationship-no strings sex lifestyle where they get used and passed around AND ALSO have those women become friends with the heroines and have their feelings hurt when somebody questions their morals. No, that doesn't work for me. In this book, I really didn't buy Winter becoming friends with and feeling affectionate toward the club girl that her partner last had sex with. She clearly had strong feelings about this, it felt really inauthentic to have her go with that, much less how she gave up her inhibitions in about a minute, much the same way that Beth does in book 1. Come to think of it, both books follow a similar pattern to some extent, that it's already too old to continue with the series.Also. I'm happy to suspend disbelief, but someone having a spinal fracture and a fractured jaw, then having physical therapy and being partly recovered in a month felt ridiculous to me.

Possible Spoilers: Well I have to say it, Viper was a douchenozzle and Winter should have kicked his ass; that being said... I loved their story. I couldn't believe the crap Viper pulled on Winter, he basically strung her along and gave her lady blue balls while he got his pieces of a** somewhere else. I have to say I did love how they help Winter recovery and I loved Beth for hiring Conner Stevens for her physical therapist. A little healthy competition never hurt anyone and Viper deserved it for being a buttmole. Winter was a very strong woman and I loved her determination to get better even if it was just to escape Viper.

Overall Rating: 4.5 Rockin' Stars!!! "You're mine, regardless of whether you want to be or not. If you even think of looking at another man, I will kill... If you try to leave me again, I will lock you in my room... Do you understand me?" Viper's Run is book two in Jamie Begley's The Last Riders series. I enjoyed the first book in the series and had high expectations for Viper's story. The author did not leave me wanting. Winter Simmons is the high school vice principal who has been friends with Loker James for two years even though secretly she has wanted more than a "friends only" relationship. Loker James aka Viper is the president of The Last Riders MC, a sexy, dominant, all alpha male secretly wanting her but unable to act on his desires until he discovers who murdered his brother. When Winter discovers Loker's true identity, she feels betrayed and shuts him out of her life. This story was about extreme circumstances happening and the length someone would go to have the one they are in love with fall in love with them. There was a heart wrenching event that allowed two individuals to find each other, even though much of that was from the dominating character of Viper. Again, this book had the aah, ooh, and holy crap batman scenes! I loved Viper and Winter. I'm looking forward to the next book in this series. Hero - Loker James aka Viper: 4.5 stars Heroine - Winter Simmons: 4 stars Steam Level: 4.5 stars Plot: 4 stars Cliffhanger: No Would I recommend this book: Yes! Would I read other books by this author: Yes!
