• simple, smart, and very, very funny • - The Film Stage • Adorable • - VG

Blogger • Alien Next Door manages to take one of the most terrifying movie villains of all-time and make it come off as friendly as a family pet thanks to its simple, yet awesome artwork •

- Entertainment Buddha "Hilarious." - Horrorfuel • There's probably an important message here about how strange-looking things can be nice if you give them a chance, but who cares.

ALIEN. • - Overthinking It "I'm so glad this book is seeing the light of day, and if you're a fan of the franchise, absolutely pick it up." - Cinema Sentries "Joey Spiotto changes the dark, sinister world of Aliens to a cartoon with instant laughs that would fit well in the 80's and early 90's era of television." - Things To Do in LA "On the surface, the book boasts several clever gags hiding in plain sight, mostly references to the still-going franchise, facehuggers and otherwise."

- Bookgasm "If you're looking for something quirky to amuse an adult fan of the franchise, this is what you're looking for." - San Francisco Book Review "Spiotto takes the terrible baddie and turns it into a comical, misunderstood next door neighbor type, and it's just precious."

This is a cute book for Alien movie fans. When I have grandchildren, I will show this to them after we watch the movies together. It is too bad H.R. Giger isn't with us anymore to see the book himself.

What an incredible achievement this little book is. No text, but a heartwarming story of a Xeno and his...her...it's daily life. Takes me back to my childhood days, this does. Cannot recommend this book more. Seriously worth the money and kudos to the author...illustrator...person behind the idea cause this one is really cool.

So cute and fun, great for the whole alien loving family

funny, brought smiles to my face

I'm a big fan of the "Alien" franchise. When I saw this book, I knew that I had to have it. Upon arrival, I was happy with the purchase immediately. The depictions of the Xenomorph just trying to live it's life, just like anyone else, are funny, well drawn, and sometimes even cute. I found myself kind of wondering...have we ever really seen a Xenomorph that was NOT trying to be captured, killed, or experimented on by humans? Maybe, just maybe...they're a fun loving species that want nothing more than to feed their cats and go to the dentist.....well, maybe not.

Adorable! The only thing I didn't realize was it was a picture book, thought it would have a small story but it doesn't. But it's ok, it's still super cute and can't wait to have my husband go through it with out son.

The creator didn't miss a single chance to add something funny, sad, scary, or even heartfelt on every page of this book. It is perfect!

I bought this for my dad as a birthday gift and he absolutely loved it. I plan on getting another one for myself.
