ISBN-10: 1569752087

ISBN-13: 978-1569752081

Product Dimensions: 7.9 x 5 x 0.8 inches

Shipping Weight: 8 ounces

Average Customer Review: 3.9 out of 5 stars 6 customer reviews

Best Sellers Rank: #10,386,601 in Books (See Top 100 in Books) #81 in [Books > Travel > United States > Idaho > General](#) #1617 in [Books > Travel > United States > Central](#) #6516 in [Books > Travel > United States > West > Mountain](#)

Customer Reviews

At less than \$8 I was not terribly concerned about how good a guide book this would be. It is not bad though not great either for traveling in the state of Idaho. It has interesting historical information and is a quick read. I used it primarily to get an overview of the state as a whole. The tourist spots are noted and there is good information but you can find the same information at the state and local tourist organizations and chambers of commerce. The author in my view wastes space with information on restaurants and lodging. I find it much more useful to use online sources like Yelp and Trip Advisor to find these sorts of places and read multiple reviews that reflect current conditions. At the price I would recommend buying the book but not relying on it exclusively either for trip planning or while traveling in Idaho.

Although it otherwise is an impressive and useful work, we were disappointed by lack of color photos.

I enjoy the "Hidden" series of travel guides and this one does not disappoint. It is both useful and

entertaining and well worth purchasing. However, the last edition was 2004, so be sure to double-check any attractions beforehand to see if they are still open and located where they were seven years ago. Otherwise, you can go miles out of your way to discover a closed restaurant or relocated park entrance.

This book was a fabulous guide to planning a family vacation. As it turned out, we followed a similar path as the one described in the book --across Idaho to Yellowstone. Advance plans included sites described in this book, and when we added activities, we always checked with the book first. It was never wrong. Using this book helped make our family trip (with three teenagers!) a fun adventure. Thanks Richard Harris for all your good research and tips!

I have used other books in this series and they never disappoint. There is far more here than you can do in any one vacation, but I like it for the full overview that you get of the entire state. Don't expect a lot of maps and directions, but do expect some neat "insider" tips and different travel recommendations.

This book is helpful. There are not a lot of Idaho-specific guidebooks, and this one is pretty comprehensive. One drawback is that it does not have any pictures. Idaho has some beautiful wilderness areas and a few pictures would greatly enhance this book.
