Sarah's worst nightmare, a cute stranger who wants to talk to her, is about to sit beside her on a long flight from England to South Africa in Rochelle Morgan's *The Trouble with Flying*. Oh my goodness, I loved this book. Sarah is so adorably awkward and shy, and I could easily relate to her. Aiden is hot and weird in his own way. I anxiously awaited to see how these two could possibly meet each other again after their flight. Set against the exotic backdrop of South Africa, this story is an endearing read. I laughed, cringed at Sarah's awkwardness because I totally got it, and teared up at the book's sweetness. I really want to try Zoo Biscuits now too. If you're looking for a clean, new adult romance, then look no further. I was completely engrossed in the story and couldn't get to the next screen page on my Kindle fast enough to know what happened next. *The Trouble with Flying* by Rochelle Morgan is one of my favorite reads! Livi needs to give up her Star Trek DVDs and violin if she is going to become Miss Popularity in Rochelle Morgan's *The Trouble with Flirting*. Not being within the "in" group at school, I instantly related to Livi's quest to remake herself when she went to university, although she had more courage to go through with the transformation than I did. Set in South Africa, I enjoyed reading about the cultural differences and similarities between college-aged students. The brilliancy of this novel lies with the growth in Livi as a character. She makes mistakes and learns from them as she discovers not only who she is but who she wants to be. The easy-going and relatable writing style always pulls me in. Rochelle Morgan's books are the type I want to read in one sitting--they're that good--and *The Trouble with Flirting* is no exception. Andi has longed for the boy next door for years, but can she finally make him fall for her in Rochelle Morgan's *The Trouble with Faking?* Morgan packs some powerful twists and turns into this novel. Andi has become one of my favorite characters of the series. She's quirky and confident and bold on the outside, yet she hides who she is and what she feels from almost everyone, even herself. I wish I could be friends with Andi in real life. She's so cool with her book reviews on YouTube and the stuff she crafts on Etsy. She gets into complicated situations, which almost ruin everything. I enjoyed the sweetness of a school girl crush between her and Damien and loved the interaction between her and Damien's best friend. I love how Morgan has set this series in South

Africa where she lives. It's exotic at times and so normal at others. The Trouble with Faking by Rochelle Morgan is a great addition to the Trouble series. Sophie Hensley wants to focus solely upon her art, but she must get through her sister's wedding first in Rochelle Morgan's The Trouble with Falling. A heart-breaking end to her first relationship leaves Sophie more than just bitter about love. She refuses to fall in love ever again. Being alone is the only way she can't get hurt, but an Internet relationship with a fellow artist and meeting her sister's fiancé's best friend are making her reconsider everything she's felt the past year. I understood why Sophie felt the way she did when it came to relationships, and it was sweet and beautiful as she found a way to be happy again. Caleb is also completely adorable with how he strives for happiness and making friends, despite his background. I loved how we saw the characters from the other Trouble books as well as more of South Africa, where the books take place. I recommend The Trouble with Falling by Rochelle Morgan for anyone who enjoys sweet uplifting romantic stories.

It was a nice series. The romance was very sweet, down side very predictable no thrown surprises. This series can be for those who want to read something that is vanilla, vanilla romance.

I adored these books. This was my first read by this author, and I'll definitely seek out more of her work. I read through the ebook compilation in a matter of days, with an odd combination of savoring the moments and scurrying to find out what happens next. Sweet, fun romances with a variety of well written characters. I can't pick a favorite!

This is the ultimate box set for anyone who loves NA, YA, Romance and lots and lots of endless fretting over what is going to happen next! I love each book in this set for different reasons but there is one constant throughout the series that remains the same...The author is amazing!! It is like she is tapped into the readers mind and can tell what they think about on a daily basis - the anxiety, the drama, the laughter and she has compiled it into the characters of these books. The reader simply falls into the books as if it were them, and at times it is! There is plenty of edge of your seat wondering, emotions and smiles as the reader zooms through the pages like they are short stories. Before any time at all has passed the reader has spent hours with their new best friends!! Each book is a standalone book, but they are best read in order as the characters do make appearances in the other stories. Sit back, grab this box set and be prepared to be wowed, amazed and in complete shock as the entire day has flown by without the reader realizing it....this is one of my

favorite sets so far this year!!

These stories are sweet, fun and romantic. Without a doubt, you will finish each book with a smile on your face and a sigh on your lips. The characters feel real, like friends you'd like to have, and the story lines provide the right amount of angst and romance. The heroes here are sweet, tender and loving - these aren't books filled with tattooed, tormented men - but it's such a treat to fall in love with characters who aren't afraid to wear their hearts on their sleeves and who care enough to want to get to know the girl. So, what am I trying to say here? Well, I think it's simply that beautiful love stories exist that characters can be real that chance meetings can change our lives and that a kiss can set your heart a flutter! Oh, and I'm also saying that you should pick up this (and all other books) by Rochelle Morgan. I've loved everything I've read by her and I think you will too!!

I really enjoyed these sweet romances, the third in the series, *The Trouble with Faking*, being my favorite. These girls are fun to spend a few hours with, and I quite enjoy the author's style of writing. As an American it was fascinating to compare and contrast the differences between South Africa and America, though at their core, the people are the same. We laugh, we love, we live. I could see myself becoming friends with any of these characters. All the books can be read alone, or in order, without feeling lost. Each book has a different main character, though several make appearances in the other books.
