## Customer Reviews

If you are a cave diver you will find this reading very pleasant and exciting, and it will take you to the place of the author if you have had the chance to take cave training with Patrick Widmann

I am following down the same training path as the author. I found it very insightful and intertaining. Good read. Well worth the money!

An absolutely excellent short story about advanced cave diving. Well worth the read for anyone interested in what it takes to become an advanced cave diver.

The subject is great but the book is so short and basically uninformative.

Interesting, I'd think anyone that dives would enjoy it.

Good read

Good read.

I will never pursue cave diving (cruising along the reef is enough for me) but this provided interesting insight into the high-stakes world of cave diving and increased my respect for those who safely pursue this extreme sport.
