# The Sake Handbook: All The Information You Need To Become A Sake Expert!

## Synopsis

The Sake Handbook is the foremost guide to the history, brewing, and distinctive flavors of sake. Just what are jizake, namazake and ginjoshu? The Sake Handbook answers all these questions and many more about sake wine, and will help you enjoy Japan's national beverage in style. Author John Gauntner is recognized as the world's leading non-Japanese sake expert. A longtime Japan resident, he is well known among sake brewers and others within the sake industry. He wrote the Nihonshu Column in the Japan Times for many years before writing a weekly column on sake in Japanese for the Yomiuri Shimbun, Japan's and the world's most widely distributed Japanese newspaper. In 2006, John received the Sake Samurai award. He has published five books on sake including Sake Confidential. This sake book features: This new edition has been completely revised and updated Gives you all the information you need in an handy, portable format Offers a detailed explanation of the sake brewing process Reviews over a hundred sake brands, with illustrations of their labels for easy identification Profiles over 50 Japanese izakaya or pub-style restaurants in Tokyo and the surrounding environs Lists specialty shops in Japan where you can purchase hardâ "toâ "find Japanese wine brands Lists specialty retailers in the United States and elsewhere

ISBN-13: 978-0804834254

Product Dimensions: 5.2 x 0.8 x 8 inches

Shipping Weight: 10.4 ounces (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars 39 customer reviews

Best Sellers Rank: #134,707 in Books (See Top 100 in Books) #48 in Books > Cookbooks, Food & Wine > Asian Cooking > Japanese #107 in Books > Cookbooks, Food & Wine > Beverages & Wine > Beer #137 in Books > Cookbooks, Food & Wine > Beverages & Wine > Wine & Spirits > Wine

## Customer Reviews

"The best currently available sake guidebook in English is The Sake Handbook by John Gauntner, an American living in Japan."â "San Francisco Chronicle

John Gauntner is recognized as the world's leading non-Japanese sake expert. A longtime Japan resident, he is well known among sake brewers and others within the sake industry. He wrote the Nihonshu Column in the Japan Times for many years before writing a weekly column on sake in Japanese for the Yomiuri Shimbun, Japan's and the world's most widely distributed Japanese newspaper. In 2006, John received the Sake Samurai award, the first year it was awarded. He has published five books on sake.

I lived in Japan for 12 years and have tasted both good, and bad sake. Of course, good and bad is purely one person's opinion, and often the subject of bitter arguments - except in Japan. I have sat down with good friends and tasted \$100 a glass sake and said to them (they were buying of course), "I don't like it". And they would not be offended. That's how sake is, like art. Some get it, and some don't. This book provides an objective description of many types of sake, without treading on that hallowed ground of 'taste'. The description of how different types of sake are made sets up the novice well to make their own judgement on which brands meet their satisfaction. Good book.

John Gauntner is the leading non-Japanese professional in sake. He is the first and only non-Japanese to become certified as both a Sake Expert Assessor, as bestowed by the National Research Institute of Brewing, and as a Master of Sake Tasting as bestowed by Nihon Jouzou Kyoukai, the Japanese Brewing Society of Japan he has lived in Japan since '88. He also gives a course stateside (Sake Professional Course) that is amazing for any professional looking to learn more about sake. This book is a great foundation for learning about sake. His followup book 'Sake Confidential' is a must have as well.

This book is a source of invaluable information. It has the explanation of every type of sake and how it's made. The kimoto and yamahai methods were a first for me. I also like the explanation of the various types of rice used to make sake. The language in the book is made easy, so that anyone can understand the contents of this very good information. I think that we need to read this book at least twice in order to become familiar with the sake terminology. There are also some good recommendations of great sake: many of them are hard to find in Japan. However, with a little searching around: eureka! If you're into rice wine like I am, this is a good piece for anyone's collection. Good work John Gauntner!

Received quickly! A Beautiful Sake set. I ordered a book about the traditions of Sake and they will

be given together as a Christmas gift to my daughter. She loves the history behind "things" and the Sale set adds to the interest. We incorporate Traditional Japanese traditions as I am 1/2 Japanese.

Best buy!

Sake is one of those scary unknown things that is almost as intimidating as downing your first Uni nigiri. This book lays it all out and opens the door. I am more of a beer enthusiast than a sake drinker but I have a sake brewpub about 6 blocks from my house. This book gives me enough information to figure out the sake brewpub, ask intelligent questions and find and drink some interesting Sake. It also gives me enough information to go out and buy a bottle if I am so inspired. It is interesting and well written.

interesting

A good introduction and primer to the complicated world of sake. Highly recommended for all who are interested in this subject. Book could be improved by an update on the list of suppliers, izakayas and sake retail outlets.
