In this Hello Genius board book, Duck is pretty happy with the diaper system who wouldn't be? But one day Mommy announces, "No more diapers, Duck." Duck has a few misfires (and yes, we get to see his puddles and other deposits) before finally figuring it out. The book has a bright, zany style that keeps things at kid level while getting a lot of mileage out of Duck's daffy expressions of horror and glee. Although there are a few odd details (who uses diaper pins anymore?), this book is not only fun but durable enough to survive a few real-life training sessions. Preschool. --Daniel Kraus

toddler loves this. it shows the duck not getting to the potty she laughs at his mistakes and loves to say the duck isn't wearing diapers anymore was a serious step in the right direction although mostly it think just for giving her images and language for what she was supposed to do. It's not like she aspired to be like the potty trained duck.

I can't say enough good things about this author. I have almost all of these books in my toddler classroom. My kids are interested reading books and these books have a good concept.

This is one of our daughter's favorite potty time books. She talks about duck and his "quack" accidents. The illustrations are cute and the story does not make us want to poke our eyes out, so this one is a winner in our house.

Such a cute potty book. Helped with our process.

This book is a very descriptive pictorial review for a beginning toilet learner. A most for every new mother.

I have checked out every potty book I could find at my library and this one is HANDS DOWN the best! I not only have 5 kids of my own who loved this book, I also teach a baby sign language class. The pictures are bright and funny, and the language is simple enough for babies to understand and for parents to sign. I also recently bought Penguin Says Please, not even realizing it was the same author! I will have to collect them all, they are GREAT books for babies! Great book for wiggly kids who don't have patience, this is more like a comic strip than a story.

My 3 year old son absolutely loves this book. He laughs hysterically every time we read it which is everyday and twice at each sitting. Great pictures and cute simple text. He even recites most of the sentences and will sit and "read" it on his own. There is potty humor which is right up my son's alley.

My other three children ages 6,6, and 4 enjoy it as well. It hasn't helped with his potty training but he will sit on the potty forever as long as I am willing to read this book. It is a very cute book which most young children will enjoy.

My 22 month old little girl loves this book. She is a very advanced talker and the large simple print is perfect to start reading. she loves the silly duck and has experimented with using the potty a time or two with some misses. If you take this book for what it's worth - lighthearted silly toddler fun you probably wont have the experience of other readers who don't agree that its a great book. It makes for some great silly potty time reading to help my daughter relax and have fun while practicing using her own potty chair.
