Customer Reviews

If you play battletech seriously at all, this or something similar is going to pretty much be a requirement. Mercenary forces make up the bulk of actions, and if you're not hiring one, you're likely in one. This is the go-to source for the universes soldiers of fortune.

Just what I was looking for

This book is a wonderful resource that gives a lot of history on some of the more famous (and infamous) mercenary units out there. It also gives a huge amount of information on how to create your own mercenary unit and run it. Everything from creating a heroic commander, to determining scenarios, to figuring out monthly payroll! It is wonderful!

Es un gran libro. Con él podrás hacer una unidad mercenaria y ponerle una clasificación basada en su tecnología y experiencia. También es útil en cuanto a la construcción de un contrato mercenario. Muy original. Pero para mí tiene un GRAN defecto (que me ha impedido

concederle 4 estrellas): La mitad de la mitad del libro está dedicada a otras Lanzas mercenarias. Me parece un gran desperdicio.

I seem to have purchased a earlier issue of this work. Mine shows a different cover then the one shown on . Its a great addition to the game, listing some 43 mercenary units from a wide range of backgrounds and levels of experience. For the series BT Fan, this is a must have.
