# The Age Of Inequality: Corporate America's War On Working People

## Synopsis

The stories behind the inequality crisis—a forty-year investigation by In These TimesWith heart-wrenching reporting and incisive analysis, In These Times magazine has charted a staggering rise in inequality and the fall of the American middle class. Here, in a selection from four decades of articles by investigative reporters and progressive thinkers, is the story of our age. It is a tale of shockingly successful corporate takeovers stretching from Reagan to Trump, but also of brave attempts to turn the tide, from the Seattle global justice protests to Occupy to the Fight for 15. Featuring contributions from Michelle Chen, Noam Chomsky, Tom Geoghegan, Juan González, David Moberg, Salim Muwakkil, Ralph Nader, Frances Fox Piven, Keeanga-Yamahtta Taylor, Slavoj Žižek, and many others, *The Age of Inequality* is the definitive account of a defining issue of our time.

## Customer Reviews

As In These Times has documented for the past forty years, the great issue of our time is our nation's movement toward oligarchy. We have a grotesque level of income and wealth inequality and a political system that is being bought and sold. We must make it clear that the greed of the 1 percent, corporate america, and wall street cannot continue. We must stand together and say "enough is enough." Bernie Sanders "To get out of the current political and economic hole, we need to understand how we ended up here. For decades, In These Times has been marshaling some of our finest minds to tackle this vital question, and here are the illuminating

results of that investigation.â • â "Naomi Klein â œlf we canâ™t address the gross unfairness thatâ™s come to mark our economic life, we probably canâ™t address our other problems either. These are some of the planetâ™s sharpest minds, and what they say must be heard.â • â "Bill McKibben, author of Eearth: Making a Life on a Tough New Planet

Jeremy Gantz is a contributing editor with In These Times. He lives in Chicago.

This book is the culmination of over 40 years of written coverage on the war of inequality we have in America. The artful manner in which the reprinted articles are aligned in succession gives us the timeline of how we got here. It is a road map on how we can chart our path out of this inequality. In These Times magazine and reporters are par none with any progressive news outlet. This should be a primer used in all schools for High School history. This is a book you have to have.

Manufacturing U.S. jobs are being evaporated due to automation, outsourcing, and migration to nonunion states, all the while the 1% is getting richer and the inflation adjusted American family income is dropping. Naturally, the ability to outsource for lower wages allows corporations to gut out the remainder of American unions. There is not a surplus of high skilled jobs awaiting trained or retrained workers. Union busting Republicans/corporations have been very successful. While union density declined, many union members actually have begun to vote Republican! Discussions of predatory lending, vampire market, credit scams, graduating student debts, the devastation of McJobs, and privatization were discussed by various authors. The "free market," perhaps the most insidious of all fiscal lies, was not discussed. The section on dairy farming was especially appalling, although the current state of Iraq created by the U.S. is even more terrible and involves humans. All this is news we knew. A myriad of social ills is examined with suggestions and methods for coping. I am giving this book, although I still suggest you read every word, merely a 4 star simply because it was published too early to examine the disaster November 8, 2016 has given us. However, the moral of the story is that big money wins.
