# Travel Rio De Janeiro, Brazil 2012 - Illustrated Guide, Phrasebook, And Maps. (Mobi Travel)

## Synopsis

This guide is designed for optimal navigation on eReaders, smartphones, and other mobile electronic devices. It is indexed alphabetically and by category, making it easier to access individual articles. Articles feature information about attractions, landmarks, districts, transportation, cultural venues, dining, history and much more. Addresses, telephones, hours of operation and admissions information are included. The guide is complimented by clearly marked maps that are linked to city attractions. An interlinked phrasebook as well as a pronunciation guide are included. This travel guide also features an itinerary with our suggestions for your travel route. Itineraries include links to individual attraction articles. NEW FEATURE: The attraction articles now include links to Google Maps. On a dedicated electronic reader with a slow connection and a primitive browser, Google Maps will display the attraction on the map along with metro stations, roads, and nearby attractions. On an internet-enabled device such as the iPhone and the iPad, Google Maps will even show you the route from your current location to the attraction you want to go to. With this travel guide you can turn some eReaders into audio guides. For example, on the Kindle, just open an article and click Shift+SYM to activate text-to-speech. Put the speaker on the back of the Kindle against your ear and enjoy your virtual travel companion. Press Spacebar to pause/resume text-to-speech. All travel guides in the Mobi Travel series are only \$4.99 or less. Search for any title: enter mobi (short for MobileReference) and a keyword; for example: mobi Paris. ## Customer Reviews

Up front, I bought this on my Ipad, and decided to try IBooks for a change. I was headed to Rio and could not find my travel guide. I debated on the Rough Guide or the mobi. MobiReference is great for their collections, but as a travel guide not so hot. When Kindle first came out, it was pretty much the only travel guide available. Granted, it is pulled from Wikipedia, but it was good to have it all in one place. The Rough Guide was \$13.99 at 200 or so pages, and the mobi was over a 1200 pages at \$4.99. I went for the mobi. First, lots of empty pages. Maps was one of Brazil, central, and an overview. Useless.....to get directions, you had to click for internet access. For food or hotels, click on the sight to call up Tripadvisor. The vast majority of the book was a collection of short stories or excerpts of novels. That explained the 1,200 pages. Also, they had Sudoku, which could only be played on an actual kindle. \$5 is not a big enough deal, except they had a whole section on Copacabana. The section was about Copacabana, Bolivia. It mentioned that it gave its name to a famous beach in Rio, but the entire section was on the Copacabana in Bolivia. Not worth a free download.....
