Customer Reviews

First, it does not contain the piano part (this is not usually a big problem in solo learning pieces) however, the music has rests during the piece. I checked and it does not mention anything about having/not having a piano book. Also, is this new condition? I had wear and marks all over the front cover. I recommend going with another book.

I think this is the one that did not include an accompanying piano part. If I had known I would not have bought it.
