"Good sized book. Enough space to write your solutions. Very good puzzles, can be challenging - due to the fact that sometimes a letter is the actual letter in the solutions. An 'e' in the jumble MAY be an 'e' in the actual word!" ~ ANDRE CHIASSON

Good sized book. Enough space to write your solutions. Very good puzzles, can be challenging -

due to the fact that sometimes a letter is the actual letter in the solutions. An ' in the jumble MAY be an ' in the actual word! ~Â ANDRE CHIASSON

Poor! The standard has been violated which is no one letter stands for itself. This book seems to be covering an editorial editing error by allowing one letter to represent itself. On page one of this book, this type of error occurs four times, where as the editorial statement states that it may occur : "for interest."

The part where some letters stand for themselves is bad. It interrupts the flow. I check my work at times and the names I don't recognize and at finish I look at the solution to verify when done with the puzzle. This particular book I have found a different puzzle solution from the puzzle itself. So no solution to compare. Puzzles 72 and 86 so far have a different solution

A good puzzle book with good quotes. The type selected is not overly user friendly for cryptogramming, but usable. On puzzle 86, the hint key and answer key are incorrect. Alternate hints to use: x=c c=q

Lots of fun. Good hints in the front on cryptograms in general with 2 hint sections in the back, along with the answers.

At least one letter in every cryptogram is its own letter. Never have had this before.

This was a gift and the recipient loved the cryptograms.

Great except sometimes the letter used is the letter that it is. Don't really like that.

This book contains many errors. The hint key and answer key don't always match the puzzle. For example puzzle 72 & 86. The binding also makes it difficult to do the puzzles towards the center of the book. A spiral-bound binding or wider margins would've really helped. I also don't like the same letter substitution
